Commitments (note 5)**COMPTROLLER-GENERAL'S CERTIFICATE**

The above statement of assets and liabilities as at March 31, 1977, is in agreement with the books of the Province of British Columbia.

In my opinion this statement is properly drawn up so as to exhibit a correct view of the financial position of the Province as at March 31, 1977.

Victoria, British Columbia
July 29, 1977

K. M. LIGHTBODY, C.A.
Acting Comptroller-General

NOTES TO FINANCIAL STATEMENTS**1. Accounting****A. GENERAL FUND**

The accounts of the General Fund are maintained on a cash basis whereby revenues are taken into the accounts in the fiscal period in which they are received and expenditures are charged when the actual payments are made. The financial statements reflect this cash-basis accounting, but with the following major modifications:

- (a) Moneys received in April of the next following year pertaining to cost-sharing programs with other governments (principally the Government of Canada), and for which the relative program expenditures have been charged to the current year, are included in revenues and shown as accounts receivable in the statement of assets and liabilities.
- (b) Accounts payable at March 31 for which cheques are issued during April of the next following year are included in current-year expenditures and are shown as accounts payable in the statement of assets and liabilities.
- (c) Interest accrued on the unmatured deficit repayment debt at March 31 is included in budgetary expenditure and shown in other current liabilities in the statement of assets and liabilities. Interest on the other unmatured debt is not accrued because the sinking funds provide for all interest payments in addition to the redemption of this debt.

General Fund revenues and expenditures are separated into two distinct categories:

- (a) Budgetary transactions: All regular revenues and all ordinary expenditures of government.
- (b) Other, nonbudgetary transactions: Any extraordinary revenues of significant amount and all nonbudgetary expenditures and surplus appropriations, such as appropriations of moneys to and recoveries of balances from Special Purpose Funds, and capital investment in and advances to Crown corporations, Boards, etc.

In addition to the operational or current assets and liabilities and the unmatured debt, the Province records certain assets for purposes of record only through credits to Capital Surplus Account. These are: Taxes and other accounts receivable which are not included in Revenue until received in cash, loans, and other advances, investments in and advances to Crown corporations, etc., and fixed assets.

B. SPECIAL PURPOSE FUNDS

The accounts of all Special Purpose Funds are maintained on a cash basis with the exception of the Provincial Home Acquisition Fund and the Housing Fund, wherein mortgage loans, accounts, and advances receivable, and investments in real estate, as well as investments in and advances to housing corporations are not charged to expenditure account but are capitalized and shown as assets of the respective funds.

C. SUPERANNUATION FUNDS AND TRUST FUNDS

The individual Funds in these categories are maintained on a cash basis.

2. Loans and Other Advances

Loans and other advances are carried as assets at book value (net of reserves in certain cases), as the amount of their ultimate realization cannot be determined at this date.

3. Investment in and Advances to Crown Corporations

The interest of the Province in its Crown corporations is shown in the financial statements only to the extent of the amounts actually invested in or advanced to them; thus accumulated earnings (or deficits) of these organizations are not reflected therein. Financial statements of Crown corporations and other Government agencies are presented in Section F of this report.

4. Superannuation Funds

All required contributions by the Province of British Columbia to the Public Service Superannuation Fund and the Members of the Legislative Assembly Superannuation Account have been made as at March 31, 1977. The last actuarial valuation of the Public Service

Superannuation Fund, as at March 31, 1970, reported an unfunded liability of \$64 million. An actuarial valuation of the Fund as at March 31, 1975, is presently being conducted. Preliminary results indicate an unfunded liability in the neighbourhood of \$160 million. There is no statutory requirement to fund this liability, and no payments have been made by the Province in this respect.

Through the budgetary expenditures of the Ministry of Education the Province of British Columbia contributes to the Teachers' Pension Fund administered by the Commissioner of Teachers' Pensions. All required contributions have been made as at March 31, 1977. The last actuarial valuation of the Fund, as at December 31, 1974, reported an unfunded liability of \$468 million. There is no statutory requirement to fund this liability, and no payments have been made by the Province in this respect.

5. Commitments

No provision is made in the accounts for commitments under construction or other contracts in force at the year-end. Such future expenditures are charged to appropriations in the years in which the work or service is performed.

6. British Columbia Buildings Corporation

The British Columbia Buildings Corporation was incorporated under the *British Columbia Buildings Corporation Act* (1976, chap. 5), assented to September 30, 1976. The Corporation has the power and capacity to serve as an agency of the Crown to provide public buildings required for Government service and to charge ministries and agencies of the Government rent for the accommodations provided.

It is the intention to transfer to the Corporation, during the next fiscal year, all land and buildings administered by the Ministry of Highways and Public Works (except for the Parliament Buildings, Government House, and Glendale Laundry). The accounts of the Province recording the historical costs and accumulated depreciation will be adjusted at that time. The valuation of the properties involved has not yet been completed nor has the form of the consideration to be taken back by the Province been finalized.

7. Anti-inflation Legislation

The Province is subject to controls on compensation instituted by the Government of Canada pursuant to an agreement entered into under the *Anti-Inflation Measures Act* (1976, chap. 1), effective June 21, 1976.

8. Subsequent Events

A. Pursuant to an agreement with the Province, Canada paid \$54 million to the Province to assist in the construction and operation of the British Columbia Railway Company. This money was received in April 1977. Bill No. 47, *British Columbia Railway Company Grant Act, 1977*, currently before the Legislative Assembly, requires the Minister of Finance to pay that amount to the British Columbia Railway Company.

B. The Province in prior fiscal periods pursuant to the *Farm Products Industry Improvement Act* has guaranteed the indebtedness of certain debentures issued by Swan Valley Foods Ltd. The Province also previously acquired a minority interest in the Company. It is intended, upon Royal Assent of Bill No. 56, *Swan Valley Foods Limited Debenture Purchase Act*, currently before the Legislative Assembly, to acquire guaranteed securities totalling \$7.5 million, to remove the guarantee, and to record the securities at a nominal value of \$1.

¹ The British Columbia Buildings Corporation assumed responsibility for constructing public buildings on October 1, 1976. This amount therefore does not include \$25,954,524 relating to construction projects reported on by the Corporation for the period October 1, 1976, to March 31, 1977. Pursuant to the *British Columbia Buildings Corporation Act*, the Province has made grants to the Corporation in the fiscal year 1976/77 totalling \$25,954,524. This amount is included in grants to Crown corporations under the "Other Payments and Charges" category.

² Includes gross expenditure from April 1 to December 31, 1976, and the subsidy equivalent to the net operating loss of the British Columbia Ferry Corporation for the period January 1 to March 31, 1977.

³ Subsequent to October 1973, aid to blind persons was incorporated in Social Assistance.

BRITISH COLUMBIA ASSESSMENT AUTHORITY

AUDITOR'S REPORT

The Minister of Finance
Province of British Columbia, and
The Members of the
British Columbia Assessment Authority

I have examined the balance sheet of the British Columbia Assessment Authority as at December 31, 1976 and the statement of operating fund transactions and surplus for the year then ended. My examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the British Columbia Assessment Authority as at December 31, 1976, and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year:

BRITISH COLUMBIA ASSESSMENT AUTHORITYNOTES TO FINANCIAL STATEMENTSFOR THE YEAR ENDED DECEMBER 31, 19761. Significant Accounting Policies

Property and equipment are charged to operations at the time of acquisition and concurrently are recorded in the Capital Fund. The Authority does not record depreciation expense. Upon disposal, the original cost of an asset is removed from the Capital Fund; and any proceeds are credited to operations.

2. Funding

The Authority is entitled to receive from the Province of British Columbia:

- a) annual capital grants of \$1,500,000, commencing in 1975, and continuing for a period of five years.
- b) annual operating grants, commencing in 1975, equivalent to the sum produced by a levy of one-tenth of one mill on the total assessed value of all taxable property in the Province. In lieu thereof the Authority received grants of \$4,200,000 each in the years 1975 and 1976.

3. Commitments

The authority is committed to make the following payments during the next four years on buildings leased for periods of more than one year.

year to December 31, 1977	\$1,074,000
year to December 31, 1978	928,000
year to December 31, 1979	841,000

BRITISH COLUMBIA BUILDINGS CORPORATION

Notes to Balance Sheet

March 31, 1977

1. Status of corporation:

The British Columbia Buildings Corporation is incorporated as a Crown Corporation of the Province of British Columbia under the British Columbia Buildings Corporation Act, S.B.C., 1976, Chapter 5, assented to September 30, 1976 and is an agent of the Crown. The Corporation has the power and capacity to provide public buildings and other accommodation required for governmental purposes and to charge departments and agencies of the government rent for the accommodations provided.

2. Accounting policies:

Capitalized project costs:

Commencing October 1, 1976, the Corporation incurred costs to construct new and alter existing buildings, and to carry out studies, investigations, and research with regard to future accommodation requirements. Title to the land and buildings with which these costs are associated has not been transferred to the Corporation. However, it is the intention of the Crown to transfer these assets to the Corporation at a later date. All construction and development costs, including salaries of personnel directly involved with planning projects and the interest incurred on long-term debt of \$514,397 net of interest earned on temporary investments of \$266,836, have been capitalized.

Depreciation and amortization:

No provision has been made for depreciation and amortization to March 31, 1977 as no operating revenues have accrued to the Corporation.

Start-up costs:

Costs associated with the commencement of operations of British Columbia Buildings Corporation have been deferred and will be amortized on a straight-line basis over five years from the later of the date of commencement of operations or from the date the costs were incurred.

Income taxes:

Under the provisions of the Income Tax Act, the Corporation is exempt from Canadian Federal and Provincial income taxes.

3. Contributed by the Province of British Columbia:

Under the provisions of Section 17 of the British Columbia Buildings Corporation Act, the Province of British Columbia paid \$25,974,581 from the Consolidated Revenue Fund on behalf of the Corporation. These payments have been accounted for as a contribution towards capitalized project costs and start-up costs incurred.

BRITISH COLUMBIA BUILDINGS CORPORATION

Notes to Balance Sheet, continued

March 31, 1977

4. Long-term debt:

9.9% Sinking Fund Bonds, Series BCA, due November 1, 2001	\$ 12,000,000
8.0% Notes payable due March 31, 1978	<u>2,000,000</u>
	\$ <u>14,000,000</u>

Classified on the balance sheet as follows:

Current portion	\$ 2,189,600
Non-current portion	<u>11,810,400</u>
	\$ <u>14,000,000</u>

Long-term debt is not secured by the assets of the Corporation. The Corporation has the right to redeem the Sinking Fund Bonds on November 1, 1994, or on various dates thereafter. Until such date the Corporation is required to set aside annually from its general funds a sum equal to \$189,600 to meet sinking fund requirements. The Province of British Columbia has unconditionally guaranteed the payment of principal and interest of the sinking fund bonds and notes issued by the Corporation. The aggregate of the sums that may be borrowed under the authority of the British Columbia Buildings Corporation Act shall not exceed \$200,000,000 excluding those items set out in Section 10 of the Act.

5. Commitments and planned projects:

At March 31, 1977 the Corporation estimates costs to complete projects under construction and planned projects will amount to \$125,000,000 of which \$32,000,000 is committed under signed contracts. The Corporation intends to finance these projects through additional issues of bonds and notes under the powers granted it by the British Columbia Buildings Corporation Act.

6. Subsequent events:

Subsequent to March 31, 1977, the Corporation issued sinking fund bonds as follows:

9.67% Sinking Fund Bonds, Series BCB, due April 1, 2002	\$ 16,000,000
9.03% Sinking Fund Bonds, Series A1, due April 7, 1997	5,000,000
Annual sinking fund requirements for these bonds amount to	
\$374,750.	

The 8.0% notes payable of \$2,000,000 due March 31, 1978 were redeemed out of the proceeds of these issues.

AUDITORS' REPORT

The Lieutenant-Governor in Council
Province of British Columbia

We have examined the balance sheet of British Columbia Cellulose Company as at December 31, 1976 and the statements of earnings and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the company as at December 31, 1976 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

In accordance with Section 213 of the British Columbia Companies Act, we report that, in our opinion, the information given with regard to the subsidiary companies is satisfactory.

BRITISH COLUMBIA CELLULOSE COMPANY

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1976

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Principles of Equity Accounting

The investment in shares of the two subsidiary companies, Canadian Cellulose Company, Limited and Kootenay Forest Products Limited, is accounted for on the equity basis since the companies cannot be considered to constitute a single economic entity with full interchangeability of management and other resources. The investments in shares are carried at their original cost plus their share of net earnings since acquisition less dividends received (1976 - \$2,931,081; 1975 - \$2,883,930) (note 3).

The audited financial statements of the two subsidiaries are published separately and are available for information purposes. Net earnings of Kootenay Forest Products are for the period from March 1, 1975 to December 31, 1976. The extraordinary item included in the net earnings of Canadian Cellulose Company, Limited is an income tax reduction on application of prior years' losses.

(b) Depreciation

Depreciation on office equipment is taken at 20% on a reducing balance.

(c) Comparative Figures

Certain comparative figures have been restated to conform with the presentation adopted in the current year. These restatements have had no effect on earnings or retained earnings but have increased working capital as at December 31, 1975 by \$2,928,943.

The comparative figures were reported on by other auditors.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1976

2. INVESTMENT IN AND ADVANCES TO PLATEAU MILLS LTD. (continued)

Advances are with interest at prime bank lending rate plus 1/2% and are repayable in forty equal quarterly instalments of \$155,000 commencing September 1976. Security is by way of a second fixed and floating charge on Plateau's assets, subject to a prior debenture of \$4,500,000.

The remaining outstanding shares of Plateau are owned directly by the Province of British Columbia.

3. INVESTMENT IN AND ADVANCES TO SUBSIDIARY COMPANIES

	<u>92,914,307</u>	<u>74,051,599</u>

The original investment in shares of Kootenay Forest Products amounted to \$2,747,706 which was written down in 1975 to net book value at the date of acquisition. No cost was attributed to the shares of Canadian Cellulose Company.

Advances are without interest or fixed repayment terms. The company has agreed to postpone repayment of the advances until Kootenay Forest Products has repaid its term bank loans (presently scheduled for December 1980).

4. ADVANCES FROM THE PROVINCE OF BRITISH COLUMBIA

These advances are repayable on demand. Interest at prime bank rate is payable quarterly. To date payments of principal and interest have not been made pending a decision by the Province of British Columbia as to the ultimate disposition of these advances. Interest continues to accrue pending that decision and is included as a long-term liability together with the principal amount of the advances (1976 - \$4,055,771; 1975 - \$2,603,942).

Notes to the financial statements

March 31, 1977

1. ACCOUNTING POLICIES

a) PROVISION FOR LOSSES ON LOANS AND GUARANTEES OF LOANS TO INDUSTRIAL ENTERPRISES

Loan account arrears and guarantees are reviewed on a regular basis by management and uncollectible loans are written off. A provision in the amount of \$1,100,000 (1976 — \$450,000) has also been made for estimated future losses.

b) CAPITALIZATION OF LAND COSTS

Land held for long-term development is carried at cost. Land under development is carried at cost which is less than estimated net realizable value. Cost includes, in addition to acquisition cost: net carrying costs, direct development expenditures, personnel salaries and expenses directly attributable to land and development.

c) DEPRECIATION AND AMORTIZATION

Furniture, fixtures and leasehold improvements are written off on a straight line basis over ten years.

6. COMMITMENTS

a) LOANS TO INDUSTRIAL ENTERPRISES

The Corporation has authorized loans of which \$1,727,000 has not yet been disbursed.

b) PROPERTY PURCHASE AND LEASEBACK

Under an agreement with an industrial enterprise the Corporation is committed to purchase, for approximately \$2,100,000, an industrial property. Currently, a building is being constructed on the property. Upon completion of the building, the property will be acquired by the Corporation and leased back to the industrial enterprise. As security to funds advanced for this project, the Corporation has a first charge on the property.

c) OFFICE PREMISES

The Corporation has entered into a lease agreement for office premises with annual rental of \$54,667 plus charges and tax escalation; subject to renegotiation in 1979.

7. CONTINGENT LIABILITY

The Corporation is contingently liable in the amount of \$3,473,000 as guarantor of bank indebtedness of industrial enterprises.

8. ANTI-INFLATION ACT

The Corporation is subject to the compensation provisions of the Anti-Inflation Guidelines. It is the opinion of management that the Corporation has complied with these guidelines.

Auditors' Report

To The Honourable Donald M. Phillips, Minister,
Department of Economic Development,
The Government of The Province of British Columbia.

We have examined the balance sheet of British Columbia Development Corporation, as at March 31, 1977 and the statements of earnings and retained earnings and changes in industrial development programs for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the Corporation as at March 31, 1977 and the results of its operations and the changes in its industrial development programs for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

BRITISH COLUMBIA FERRY CORPORATION

NOTES TO FINANCIAL STATEMENTS
MARCH 31, 1977

1. Incorporation:

The British Columbia Ferry Corporation was incorporated under the British Columbia Ferry Corporation Act of the Province of British Columbia. The Act was assented to on June 30, 1976 and proclaimed in force as of January 1, 1977.

Effective January 1, 1977, by Order-In-Council dated December 16, 1976, the Province transferred to the Corporation certain assets and liabilities of the ferry system previously operated by the Province.

In conjunction with this transfer the Province undertook to provide sufficient funds to meet all those liabilities assumed by the Corporation and the Corporation is obligated to issue shares to the Province as consideration for the assets acquired.

2. Summary of accounting policies:

Inventories-

Inventories comprise parts, equipment and supplies and are valued at the lower of cost and current replacement cost.

Fixed assets-

Vessels, terminals and maintenance facilities

(a) Acquired from the Province effective January 1, 1977:

Vessels, terminals and maintenance facilities acquired by the Corporation from the Province effective January 1, 1977 by Order-In-Council dated December 16, 1976, were transferred at an assigned value of \$1.

In addition, three vessels presently under charter by the Province until 1994 are sub-chartered to the Corporation for the same period at an annual cost of \$1 each; the Corporation being responsible for all operating, repair and maintenance

Notes
Page 2

costs. Under the terms of the sub-charter agreement with the Province, the Corporation may in 1994 request that the Province exercise its option to purchase these vessels at its own expense in accordance with the terms of its charter agreement. In the event that such option is exercised clear title to the vessels will be transferred to the Corporation.

As a result of these transactions and agreements the accompanying financial statements do not reflect depreciation and charter lease costs which would otherwise be associated with the ownership and use of these assets.

(b) Acquired subsequent to January 1, 1977:

All of the additions to fixed assets during the period January 1 to March 31, 1977, \$1,228,190, represent costs incurred on terminal additions and major improvements under construction contracts signed prior to January 1, 1977 by the Province. As at March 31, 1977 the cost to complete these construction projects is estimated to be \$800,000.

It is the intended policy of the Corporation to provide for depreciation on fixed assets upon their completion and entry into service and on bases appropriate to the estimated useful lives of the respective assets.

Repairs and maintenance are charged against income as incurred.

3. Insurance reserve fund:

The Province maintains an insurance reserve fund which amounted to approximately \$4,000,000 as at March 31, 1977 to cover any major loss in excess of \$100,000 of a hull and machinery nature to any vessel operated by either the Department of Highways or the Corporation. Any loss or combination of losses in excess of the total of the Insurance Reserve Fund is the responsibility of the Corporation. The Corporation is at present reviewing the matter of insurance coverage on vessels, terminals,

maintenance facilities and inventories. As this review is still in progress, a provision of \$250,000 has been made as at March 31, 1977 by way of a self-insurance reserve fund pending a decision on this matter.

4. Long-term debt:

Effective January 1, 1977 and pursuant to the British Columbia Ferry Corporation Act, all the liabilities of the British Columbia Ferry Authority in respect of the payment of the principal and interest on the outstanding bonds and debentures of the British Columbia Ferry Authority were assumed by the Corporation, and all money and investments in or forming part of the sinking funds established for repayment of those bonds and debentures were transferred to and vested in the Corporation.

The outstanding bonds and debentures as at March 31, 1977 are as follows:

<u>Series</u>	<u>Principal</u>	<u>Rate</u>	<u>Due date</u>	<u>Due within one year</u>
C	Cdn. \$18,000,000	4.00%	July 2/77	Cdn. \$18,000,000

The Province unconditionally guarantees the payment of principal and interest on these bonds and debentures and will pay out of its Consolidated Revenue Fund such sums as may be required to discharge those liabilities in the event that the sinking fund assets are insufficient for that purpose.

The Corporation is currently engaged in discussions with the Province to formalize management and administrative responsibilities for the sinking fund which were previously and are continuing to be carried out by the Province and to consider the application of any surpluses which may arise in the sinking fund.

As the Province undertakes to pay out of its Consolidated Revenue Fund such sums as may be required to discharge these liabilities should the assets of the sinking fund be insufficient and because the discussions described

in the preceding paragraph are not concluded, the amounts of the sinking fund and outstanding bonds and debentures have not been recorded in these accounts.

Grant and subsidy:

The Corporation has received financial assistance from the Province by way of a grant equivalent to the Corporation's operating loss for the fiscal period January 1 to March 31, 1977.

By Order-In-Council dated December 16, 1976 the Corporation will receive from the Province commencing in the fiscal period 1977-1978 an annual subsidy, to be known as the Annual Highway Equivalent Subsidy. The amount of this subsidy is substantially equivalent to the aggregate of the annual cost of maintaining, and the annual amortization of the capital cost of, a two-lane highway built through difficult terrain in the coastal region and of a length equal to that of the ferry routes operated by the Corporation.

PROVINCE OF BRITISH COLUMBIA
BRITISH COLUMBIA HARBOURS BOARD
AUDITOR'S REPORT

To the Minister of Energy, Transport and Communications,
Province of British Columbia:

I have examined the statement of financial position of the British Columbia Harbours Board as at March 31, 1977 and the statement of operations and retained earnings and the statement of changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles which, except for the change with respect to payment of interest on advances, Province of British Columbia, as referred to in note 1F, have been applied on a basis consistent with that of the preceding year.

BRITISH COLUMBIA HARBOURS BOARD
NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1977

Note 1 Significant Accounting Policies:

- A. Land, buildings, equipment and the railway are valued at cost, less proceeds from granting easements through Board lands in the amount of \$520,860. During the fiscal year ended March 31st 1974, management transferred \$597,938 to land from buildings and also valued a portion of the railway right-of-way which the Crown granted the Board at \$1,277,000.
- B. Prior to April 1, 1973 depreciation was not charged against buildings and equipment because the acquisition of these assets was considered incidental to the cost of land. Commencing April 1, 1973 depreciation has been computed at ten percent of the diminishing balance.
- C. By agreement between the Board and the users of its depreciable railway facilities, the users are responsible for the costs of renewing and replacing trackage as required and also in case of abandonment, compensating the Board in full for sections abandoned; accordingly no provision for depreciation has been made in respect of railway facilities.
- D. The Board's back-up land to the Roberts Bank Superport is leased to farmers and others for various periods of up to five years. Rents are payable either monthly, quarterly, semi-annually or annually and are collected on behalf of the Board by a Board-appointed real estate agent.
- E. The Board's railway is managed under contract by the British Columbia Railway which is responsible for maintaining the right-of-way and for billing the user railways on behalf of the Board.
- F. Effective April 1, 1976 the Board is no longer required to pay interest on advances, Province of British Columbia. The Board will pay to the Province each fiscal year all funds which the Board declares to be surplus to its requirements, such sums to be applied against the outstanding advances. If the interest charge had not been discontinued it would have amounted to \$2,312,416 for the year ended March 31, 1977.

Note 2 During the year the British Columbia Court of Appeal handed down its decision in favour of the Province of British Columbia in the matter of Section 3 of the Constitutional Questions Determination Act RSBC 1960 Chapter 72, confirming the Province's ownership of the bed of the Strait of Georgia and related areas as set out in order-in-Council # 3459 dated 31st day of October, 1974. This decision confirms the Board's title to about 3500 acres in the Strait of Georgia capable of development for harbour and industrial purposes. However, it should be noted that the court decision is being appealed by the Government of Canada. Roberts Bank Superport and the railway right-of-way valued at \$1,277,000 (see note 1A above) are in this area. Certain legal costs (\$20,000) pertaining to this court case have been paid by the Board and capitalized in the land account.

Note 3 Adjustments to Prior Years' Income:

Charges to user railways for under billing of privilege charges for the period April 1, 1970 to March 31, 1976	\$347,214
Add: Land sales transactions prior to March 31, 1976	<u>64,321</u>
	411,535
Less: Operating costs charged to the railway account during the period April 1, 1970 to March 31, 1976	<u>(374,051)</u>
	<u>\$ 37,484</u>

Note 4 Subsequent Event:

During June 1977 it was determined at the Ministry of Highways and Public Works that approximately \$500,000 of prior years' costs attributable to the railway account had not been allocated thereto. When recorded by the Board the railway and grants in aid of construction accounts will be increased by this amount. Accordingly, the Board will be entitled to bill user railways for approximately \$200,000 pertaining to prior years.

AUDITORS' REPORT

To The British Columbia Housing
Management Commission,
Vancouver, B.C.

We have examined the combined balance sheet of The British Columbia Housing Management Commission as at December 31, 1976 and the combined statements of amount due from participants and revenue and expenditure for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these combined financial statements present fairly the combined financial position of the Commission as at December 31, 1976 and the combined results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding period.

THE BRITISH COLUMBIA HOUSING MANAGEMENT COMMISSIONNOTES TO THE COMBINED FINANCIAL STATEMENTSDECEMBER 31, 1976

1. These financial statements combine six separate financial statements of portfolios or programs under the common management of the Commission each of which has its own subsidy sharing agreement. The allocation of each of the subsidies is as follows:

	<u>Subsidy share</u>	
	<u>Central Mortgage & Housing Corporation</u>	<u>Province of British Columbia</u>
N.H.A. Section 40 properties	75%	25%
N.H.A. Section 40 (Prince Rupert property)	75%	25%
N.H.A. Section 43/44 properties	50%	50%
Wholly Provincial properties		100%
Rent Supplement Program	58%	42%
Assisted Rental Program (approximate)	50%	50%

2. Amount due to the Provincial Rental Housing Corporation includes the provincial share of 1974 and 1975 amortization credits for section 40 and Prince Rupert projects as follows:

Section 40		
1974 provincial share	918,269	
1975 provincial share	<u>1,039,163</u>	\$1,957,432
Prince Rupert		
1975 provincial share		<u>7,060</u>
		<u>\$1,964,492</u>

These amounts were paid to the Provincial Rental Housing Corporation during fiscal 1977.

The British Columbia Housing
Management Commission

.

- 2 -

3. This amount represents Central Mortgage and Housing Corporation's share of 1975 costs, originally charged directly to The Province of British Columbia now considered normal shared costs.

4. Home office costs incurred in the period September 1975 to December 1975 applicable to the Rent Supplement Program include:

Administration expense	\$17,325
Maintenance expense	608
Operating expense	<u>416</u>
	<u>\$18,349</u>

These amounts were excluded from the 1975 statements as an appropriate proportion formula had not been established.

5. During the year The British Columbia Housing Management Commission changed its account classifications for revenue and expenses and comparative figures for the previous fiscal year are not available. However, management feels that comparative figures are not essential to the meaningful interpretation of these financial statements.

6. The British Columbia Housing Management Commission pays to the municipalities a sum equivalent to property taxes in lieu of such taxes and this sum is not subject to relief by grant.

7. Provision for amortization is based on calculations made by The British Columbia Housing Management Commission and approved by Central Mortgage & Housing Corporation and includes adjustments of estimated amortization amounts charged in previous years.

The British Columbia Housing
Management Commission

.

8. The Rent Supplement Program provides grants to non-profit societies which are designated as eligible to receive monthly payments for subsidy assistance. These payments represent the difference between the full recovery rents as approved by Central Mortgage & Housing Corporation and the actual rental revenue resulting from tenants paying no more than 25% of their income towards rent.
9. The Assisted Rental Program makes available loans and grants to private developers. Also under this program, funds in the form of rent supplements are made available for up to 25% of the occupants in those privately-owned buildings.

Report of the Auditors

The Lieutenant-Governor in Council, Province of British Columbia:

We have examined the balance sheet of British Columbia Hydro and Power Authority as at 31 March 1977, and the statements of income, earnings retained in the business and changes in financial position for the year then ended and the statement of long-term debt as at 31 March 1977. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of British Columbia Hydro and Power Authority as at 31 March 1977 and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

The accounting policies of B.C. Hydro conform to accounting principles generally accepted in Canada for public utilities. A description of significant accounting policies follows.

Fixed assets and depreciation—

Fixed assets consist principally of land, franchises, water rights, storage dams, plants for the generation, transmission and distribution of electricity and gas, trolley coaches, motor buses, freight railway and rolling stock.

Fixed assets include the cost of plant financed by contributions in aid of construction and contributions arising from the Columbia River Treaty. Contributions in aid of construction, which include grants for rural electrification from the Government of the Province of British Columbia and amounts paid by customers towards construction of plant, are being amortized over the estimated service lives of the related assets, and the credit resulting therefrom is offset against the corresponding provision for depreciation. Contributions arising from the Columbia River Treaty are being amortized over the remaining term of the Treaty, and the credit resulting therefrom is offset against and is equal to the annual provision for depreciation of the related assets.

The difference between the construction costs associated with the Columbia River Treaty storage projects and the total contributions arising from the Columbia River Treaty, which is considered to relate to generation of power at Mica, and construction costs of the powerhouse and other common property relating to the Mica generating plant are being transferred to fixed assets in service by instalments proportionate to the number of completed and operational units in relation to the four units presently being installed at Mica. Three units were installed and placed in operation during the year ended 31 March 1977, and consequently, 75% of the above-mentioned costs were transferred to fixed assets in service. The amount not yet transferred to fixed assets in service is included in deferred costs.

B.C. Hydro charges interest to unfinished construction and to deferred costs of fixed assets at rates equivalent to the cost of borrowing funds.

The depreciation policy of B.C. Hydro is to charge the original cost of fixed assets to income over the estimated service lives of the assets. Depreciation is provided on all depreciable assets in service at the beginning of each year and is computed on the straight-line method.

Non-owned equipment—

Approximately 33% (25% at 31 March 1976) of the buses and trolley coaches operated and maintained by B.C. Hydro are provided by the Provincial Government without charge.

Insurance—

B.C. Hydro is purchasing catastrophe insurance for liability and for difference in conditions to provide protection against major losses in excess of \$5,000,000 up to \$100,000,000. As at 31 March 1977, in excess of \$84,000,000 of this insurance was in effect.

Insurance coverage on major projects under construction is purchased either by B.C. Hydro or by its contractors as required by B.C. Hydro. Fire insurance coverage on certain plant and equipment is also purchased to comply with trust deed requirements. Motor buses, trolley coaches and service vehicles are insured for public liability with the Insurance Corporation of British Columbia.

With the above exceptions, B.C. Hydro generally follows a policy of self-insurance for damage to plant and equipment and for general liability, and any losses incurred are charged to income. B.C. Hydro maintains an insurance fund of \$5,000,000, invested in government and municipal bonds and short-term deposits with financial institutions, to provide funding for uninsured losses up to that amount.

Prior to 1 April 1975, a reserve for insurance was accumulated by annual charges to income commensurate with the current cost of insurance. This practice was discontinued in the year ended 31 March 1976, and the reserve of \$4,457,301 accumulated to 31 March 1975 was credited to earnings retained in the business.

Unamortized discount and expense on debt—

These costs are amortized by charges to income over the life of the respective issues.

BRITISH COLUMBIA HYDRO AND POWER AUTHORITY
NOTES TO FINANCIAL STATEMENTS (Continued)
as at 31 March 1977

Deferred costs of generation—

By agreement between the Canadian and United States Entities which are responsible for the operating plans under the Columbia River Treaty, B.C. Hydro, in order to accelerate filling of the Mica reservoir, delivered power generated at Burrard Thermal Generating Plant to the United States Entity as an alternative to releasing water from Mica for generation of power downstream. This delivery of power was to ensure availability of water when the Mica plant became operational and to contribute to a more efficient operation of the Mica plant. The cost of fuel used at Burrard Thermal Generating Plant to provide such power was deferred as at 31 March 1976 and, after the Mica plant became operational in 1976, was to be charged to income over seven years. Because of a favourable run-off in the late spring and summer of 1976 in the upper Columbia basin, the Mica reservoir was filled by August 1976. With the full reservoir, B.C. Hydro was in a position to generate surplus power for sale to the United States to alleviate power shortages in that country during the fall and winter of 1976/77. As a consequence, it was deemed appropriate to charge the total deferred amount of \$7,472,870 to income in the year ended 31 March 1977, the period during which the sales of surplus power were made. This amount is included in "Materials and services" in the statement of income and in "Other" in the statement of changes in financial position.

Rural electrification assistance grant—

B.C. Hydro receives an annual grant of \$3,000,000 from the Provincial Government for rural electrification assistance. These funds are used to improve and extend electric service in rural areas and to offset operating losses of electric systems purchased or constructed in isolated areas with such funds.

Foreign exchange—

The liability for long-term debt payable in United States dollars has been translated to Canadian dollars at the rates of exchange prevailing at the date the debt was incurred. Translated at the rates prevailing at 31 March 1977, the liability for long-term debt payable in United States dollars would have been increased by approximately \$60,800,000. Current assets and current liabilities

in United States dollars, including long-term debt payable within one year, are translated at the rate of exchange prevailing at the date of the balance sheet. The resulting unrealized profits or losses, which were not significant for the years ended 31 March 1977 and 1976, have been included in income.

Note 2 — Temporary investments:

	<u>\$294,591,008</u>	<u>\$47,916,717</u>

Note 3 — Payment in respect of litigation:

A lawsuit was started on 17 July 1967 in the Supreme Court of British Columbia by the contractors constructing the underground powerhouse and associated works at Gordon M. Shrum Generating Station, alleging breach of contract. Amounts between \$20 million and \$30 million were claimed as damages. During the trial, the contractors introduced an alternative claim to which they gave priority for the total cost to them of the construction work, including interest and profit, and a balance owing of \$51 million was claimed. The alternative claim was tried and judgment delivered, declaring the contractors to be entitled to compensation on the basis of quantum meruit. In a judgment delivered 13 November 1975, the compensation on the basis of quantum meruit was determined by the Trial Judge to be \$36,124,400, and this amount together with costs was awarded to the Plaintiffs. On 3 March 1976, payment into Court was made in the sum of \$36,500,490, including interest from 13 November 1975 to 28 January 1976. By order of Court, this amount may be paid to the contractors upon deposit of a bond satisfactory to the Court. A Notice of Appeal from the judgment was filed on 20 November 1975, submitting that the judgment was in error both in law and fact as to there being a fundamental breach of contract by B.C. Hydro and in the award to the Plaintiffs upon the basis of

quantum meruit. The contractors have filed a Notice of Cross-Appeal in which the entire amount of \$51 million is claimed. The hearing of the Appeals is scheduled to commence in September 1977. The amount of the final judgment or any settlement by B.C. Hydro as a result of this litigation will be capitalized as part of the cost of construction and included in fixed assets.

Note 4 — Guarantee by Province of British Columbia:

The Government of the Province of British Columbia has unconditionally guaranteed the principal of and premium, if any, and interest on the long-term debt and Parity Development Bonds.

Note 5 — Pension plans:

Employees of B.C. Hydro are covered under contributory pension plans, and provisions are being made for current service according to the requirements of the various plans.

B.C. Hydro is funding the estimated past service costs of a contributory plan introduced effective 1 January 1965 by equal annual payments of \$393,800 over a period of 15 years which commenced 1 April 1967. An actuarial report dated 1 December 1975 indicated an evaluated accrued deficit in this plan of \$41,057,000 as at 31 December 1974, largely resulting from changes in the plan since the last actuarial report. This deficit is in addition to past service costs referred to above and is being funded by equal annual payments of \$3,061,000 over a period of 25 years which commenced with the year ended 31 March 1976. The actuarial report also indicated that, if contributions to the plan continued at the rates in effect at 31 December 1974, there would be a future additional evaluated deficit in the plan of \$10,702,000, which could be funded by an increase of 1% in the rate of contribution. An increase of 1% in the rate of contribution, shared equally by B.C. Hydro and employees, was implemented 1 September 1976. Indexing of pension benefits and increases in rates of pay since 31 December 1974 will result in an additional deficit, the amount of which will be determined by an actuarial evaluation being made as at 31 December 1976.

The charge to income in respect of pension plans, including provision for supplementary payments and B.C. Hydro's share of Canada Pension Plan costs, for the year ended 31 March 1977 was \$13,683,235 (1976 — \$11,928,611).

	<u>\$260,391,231</u>	<u>\$204,892,988</u>

Note 7 — Provincial Government special subsidy:

In March 1977, B.C. Hydro received a special subsidy of \$32,600,000 from the Provincial Government towards the passenger transportation loss for the year ended 31 March 1977 (1976 — \$32,600,000 to offset the projected loss of B.C. Hydro for the year ended 31 March 1976). The annual metropolitan transit subsidy of \$2,000,000 received from the Provincial Government in the year ended 31 March 1976 and prior years was not received in the year ended 31 March 1977.

Note 8 — Commitments and Contingencies:

Purchase commitments and contracts of B.C. Hydro for capital projects (including the estimated legal costs payable to the Plaintiffs with respect to the litigation referred to in Note 3 above) aggregated approximately \$575,000,000 as at 31 March 1977.

OFFICE OF THE COMPTROLLER-GENERAL
VICTORIA, BRITISH COLUMBIA

To the Minister of Consumer and Corporate Affairs

AUDITOR'S REPORT

I have examined the balance sheet of British Columbia Liquor Distribution Branch as at March 31, 1977 and the statements of income and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion these financial statements present fairly the financial position of the Branch as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 1977

1. SIGNIFICANT ACCOUNTING POLICIES:

- a) Revenues and expenses are reflected on an accrual basis.
- b) Merchandise inventory is valued at its latest landed cost. Customs and excise taxes are not included in the value of inventory where payment is due upon shipment from the bonded warehouse.
- c) Expenditures for buildings, leasehold improvements, furniture, fixtures and equipment are capitalized and are subject to depreciation on a straight line basis as follows:

Buildings - 7-1/2 % per annum

Leasehold improvements - a minimum of 10 % per annum
or a rate sufficient to write
off the cost over the remain-
ing life of the respective
lease.

Furniture, fixtures and equipment - 25 % per annum.

2. STATUS OF THE BRANCH

- a) As a result of proclamation of the Liquor Distribution Act, S.B.C. 1975, chapter 39, assented to June 26, 1975, and the Liquor Control and Licensing Act, S.B.C. 1975, chapter 38, assented to June 26, 1975, which took effect on December 31, 1976, the operations of the Liquor Administration Branch were transferred to two new operating branches:

British Columbia Liquor Distribution Branch

British Columbia Liquor Control and Licensing Branch.

These financial statements reflect the results of both new branches for the full fiscal year with the exception that Liquor Control and Licensing Branch expenses for the three month period ended March 31, 1977 have been segregated and transferred separately to the Ministry of Consumer and Corporate Affairs, and are so reflected in the statement of income.

- b) The anniversary date for brewers and distillers assessments has been changed from a calendar year basis to coincide with the fiscal year of the Branch, as is the case with all other license renewal dates, and as a result the 1977-78 assessments formerly due January 1, 1977 did not become due until April 1, 1977 and therefore are not reflected in these financial statements.

6. COMMITMENTS

- a) An actuarial valuation up to March 31, 1975 of the Public Service Superannuation Plan under which employees of the Branch are covered has not yet been completed. Therefore these financial statements reflect only the cost of matching all employees' compulsory contributions, together with the cost of funding deficiencies in the plan for Branch employees retired in the current year.
- b) The Branch maintains inventory in its bonded warehouse for which customs and excise tax has neither been paid nor recorded. As at March 31, 1977 the future liability for these taxes approximate \$6,000,000.
- c) The aggregate minimum annual rentals for premises under long term leases extending to 1991, amount to approximately \$2,600,000 as at March 31, 1977.

7. COMPARATIVE FIGURES

Certain of the 1976 figures provided for purposes of comparison have been restated to conform with the classifications used in the current year. These changes have had no effect on the net earnings.

AUDITORS' REPORT

To the Board of Directors of
British Columbia Medical Centre

We have examined the capital and operating fund balance sheets of the British Columbia Medical Centre as at December 31, 1976 and the statement of operating expenditures and unexpended funds for the year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the Centre as at December 31, 1976 and the results of its operations for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

PROVINCE OF BRITISH COLUMBIA
BRITISH COLUMBIA MEDICAL CENTRE

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 1976

1. RELATIONS OF THE CENTRE WITH MEMBER INSTITUTIONS

The British Columbia Medical Centre was incorporated under the Medical Centre of British Columbia Act (1973) which received Royal Assent on November 7, 1973. Operations of the Centre commenced September 10, 1973. The boards of management of designated hospital corporations and foundations (hereinafter called "member institutions") are required to obtain the Centre's approval for the following purposes:

- (a) Acquisition or development of land
- (b) Undertaking of capital projects in excess of a specified amount
- (c) Changes in existing services and programmes or establishment of new services or programmes.

The Centre is empowered to provide financial assistance, subject to the approval of the Minister of Health, to member institutions for these purposes.

Member institutions currently subject to the control of the Centre, as defined above, are Vancouver General Hospital, University of British Columbia Health Science Centre, G.F. Strong Rehabilitation Centre, Children's Hospital, British Columbia Cancer Control Agency and St. Paul's Hospital. Also, the Centre has sole responsibility for the operation of Shaughnessy Hospital (refer to note 2).

These financial statements reflect only the accounts of the Centre and do not include the accounts of member institutions.

2. SHAUGHNESSY HOSPITAL

By an agreement dated and effective July 29, 1974, between the Province of British Columbia and the Centre, the Centre leased from the Province, for the sum of \$1, the hospital facilities and inventory of equipment and furnishings at Shaughnessy Hospital and assumed the operating responsibility and control of the hospital and its lands, all for a period of twenty years, with an option to the Centre to renew the agreement for a further period of ten years on the same terms, conditions and rent.

The agreement and the term created therein may be terminated by the corporation or the province at any time on giving twelve months notice to the other party.

The agreement provides that the Centre shall obtain the written permission of the Province before erecting any structures or making any alteration in structure, plan or partition of the lands and the hospital, the cost of which exceeds \$15,000, and that all such installations and additions made by the Centre on or to the hospital shall become part of the hospital and shall be the property of the Province.

The accounts of Shaughnessy Hospital are not included in these financial statements since the funding of the operation of the hospital is the responsibility of the Hospital Programs, and since title to certain assets of the hospital is held by the Province, as described above.

- 2 -

3. ACCOUNTING POLICIES

The accounting policies of the Centre and the disclosure of its financial information conform with generally accepted accounting principles as they relate to government sponsored organizations and include the following:

(a) Depreciation and amortization

The Centre does not provide for depreciation and amortization of capital assets as these are not considered to be replaceable out of current contributions from the Province.

(b) Expenditures on behalf of member institutions

All costs related to development of the Shaughnessy Hospital site are carried on the books of the Centre as capital expenditures.

No portion of salaries for employees of the Centre is capitalized.

All other expenditures on behalf of member institutions are capitalized as incurred.

4. COMMITMENTS

The Centre has made commitments to fund hospital projects and those approved by the Minister of Health, and in final stages of working drawings, out to tender or under construction, total \$1,787,041.

5. CAPITAL EXPENDITURES

Grants and expenditures comprise the following:

	<u>\$5,277,104</u>	<u>\$3,186,090</u>

- 3 -

5. CAPITAL EXPENDITURES (continued)

Subsequent to December 31, 1976 the Centre sold certain properties located adjacent to the Shaughnessy Hospital Complex for approximately \$130,000.

6. LONG-TERM DEBT

On December 10, 1975, the Centre borrowed \$1,500,000 on a debenture issued to the British Columbia Regional Hospital Districts Financing Authority for the purpose of capital expenditures.

The debenture bears interest at the rate of 8.95% per annum. Principal payments into the sinking fund, and payments of interest on the debenture are as follows:

\$67,125 on the 1st day of February in each of the years 1977 to 1995, inclusive (interest)

\$107,910 on the 1st day of August in each of the years 1977 to 1994 inclusive, (interest \$67,125, principal \$40,785)

\$67,125 on the 1st day of August 1995 (interest) \$88,967.88 on the 10th day of December 1995 (principal \$40,785, interest \$48,182.88).

AUDITORS' REPORT

The Lieutenant-Governor in Council,
Province of British Columbia.

We have examined the balance sheet of British Columbia Petroleum Corporation as at March 31, 1977 and the statements of income and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of British Columbia Petroleum Corporation as at March 31, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS

March 31, 1977

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

GAS SALES -

Under the terms of an agreement between Westcoast Transmission Company Limited and British Columbia Petroleum Corporation effective November 1, 1973 the Corporation sells natural gas to Westcoast Transmission Company Limited at a price equal to the gross revenue received by that Company on the resale thereof less the total cost of service of that Company's utility system operation.

DEPRECIATION -

Furniture, equipment, automobiles and leasehold improvements are recorded at cost and depreciation is provided at rates considered adequate to amortize the cost over the service lives of the assets. Depreciation is computed on a straight-line basis.

ADVANCES FOR EXPLORATION AND GAS DEVELOPMENTS

Advances for exploration and gas development represent funds advanced to develop gas production. These advances are secured on property of the developer and are repayable out of future related production. Where repayment is not anticipated within twelve months, such advances are shown under OTHER ASSETS.

4. GAS CREDITS PAYABLE

A portion of the price (15¢ per Mcf) payable by the Corporation for each Mcf of natural gas delivered from pools producing prior to November 14, 1973 is in the form of a credit which may be converted to cash within three years by a holder thereof expending the equivalent of 20¢ per Mcf in exploration and development work within the Province of British Columbia.

5. REMUNERATION OF DIRECTORS AND SENIOR OFFICERS

The aggregate remuneration paid to the directors and senior officers of the Corporation for the year ended March 31, 1977 amounted to \$182,883. (To March 31, 1976 - \$195,955).

6. COMMITMENTS

The Corporation has commitments under agreements for the lease of office premises extending to 1984. The aggregate rentals payable under these leases amount to approximately \$980,000 as at March 31, 1977.

BRITISH COLUMBIA RAILWAY COMPANY

Notes to Financial Statements
December 31, 1976

1. Significant accounting policies

The Canadian Transport Commission prescribes the accounting regulations for Canadian railway subject to their jurisdiction. Although the British Columbia Railway Company is not subject to the jurisdiction of the Commission, management considers that these accounting regulations are the most appropriate basis for accounting for railways in Canada, and accordingly these regulations have been adopted to the extent that this is possible without submitting specific accounting policies and depreciation rates to the Commission for approval. Such approval is not available to carriers not subject to the jurisdiction of the Commission, however, management believes the policies and rates adopted are such that their use by a regulated carrier would receive approval.

Road Property

New construction is recorded at cost and abandoned or relocated sections are removed at average unit costs. Elements of track structure installed during planned programs are recorded at cost and the material released is removed from the asset accounts at the average unit cost. Labour costs for programmed replacements are expensed as incurred.

All costs of constructing extension lines are capitalized to the date the line is certified operational by the British Columbia Department of Transport and Communications. Capitalization of interest ceases and provision of depreciation commences on the date of certification.

Depreciation

Depreciation is provided for major categories of property and equipment on the straight-line basis at composite rates estimated to reduce the original cost to estimated salvage value over the average service lives of the classes. The group method is used for recording depreciation under which the original cost of assets retired less salvage value is charged against accumulated depreciation. No gain or loss on retirements, other than on accidental destruction of rolling stock and on disposal of land, is included in operations. The original cost of principal assets less estimated salvage value is depreciated over the following number of years:

Number of Years

Grades, surfacing and tunnels	100
Rails	50
Ties and ballast	25
Bridges	65
Locomotives and power units	25
Freight cars	33

Repairs

Repairs and non-programmed replacements of track structure are charged against current operations. Betterments and major track relocations are capitalized.

- 2 -

Interest

Interest on borrowed funds used for construction of extension lines is included in the asset cost at rates approximating the borrowing rates on the funds employed.

Bond discount

Bond discount is deferred and amortized over the term of the issue to which it relates. Unamortized amounts related to debt retired are charged against operations in the year the debt is retired unless the debt is specifically refinanced in which case the remaining amount is amortized over the balance of the life of the original debt or the life of replacement debt if less.

Materials and supplies

Inventories of material and supplies are valued at the lower of average cost or net realizable value.

Income taxes

Under the provisions of the Income Tax Act, the company is exempt from Canadian federal and provincial income taxes.

Transactions in foreign currency

Current assets, current liabilities, income and expenses originating in United States currency are recorded at par which approximated the exchange rates prevailing during the fiscal year. Non-current assets and liabilities originating in United States currency have been translated into Canadian funds at the rates of exchange prevailing at the transaction dates.

Fiscal year-end

The railways fiscal year ends on the Friday closest to December 31.

The 1976 fiscal year ended on December 31, 1976 and the 1975 fiscal year ended on January 2, 1976; both comprised 52 weeks.

2. Guarantee of the Government of the Province of British Columbia

Under the provisions of the Pacific Great Eastern Construction Loan Act, 1954, the Government of the Province of British Columbia has unconditionally guaranteed the principal and interest of the long-term debt. The act provides for the Province to advance funds to meet any requirements under this guarantee.

3. Long-term debt

Long-term debt is not secured by assets of the railway. Bonds issued by the railway which are held in the sinking fund are not cancelled but for financial statement presentation have been deducted from the amounts shown as outstanding. As of December 31, 1976 the principal amount of such bonds held in the sinking fund aggregated \$31,855,903 (1975 - \$30,129,303).

Bonds totalling \$111,951,000 which are held by the Minister of Finance for Canada contain a provision whereby under certain circumstances they may be presented for redemption upon six months notice given to the railway. A further \$48,387,000 of bonds are subject to redemption after 1979 at the option of either the holder or the railway. The railway also has the right under certain circumstances to redeem bonds at various dates, principally after 1982, aggregating \$407,043,353, in some cases at premiums up to 1%.

- 3 -

Interest and debt expense related to long-term debt has been reduced by interest charged to construction of \$9,127,068 (1975 - \$7,672,642), sinking fund earnings on investments other than bonds issued by British Columbia Railway Company totalling \$3,318,604 (1975 - \$1,713,635) and interest on temporary investment of long-term debt proceeds of \$4,016,933 (1975 - \$1,186,432).

Long-term debt outstanding, less current maturities, is as follows:

	<u>1976</u>	<u>1975</u>

Long-term debt retirements and sinking fund provisions for the four fiscal years ending with 1981 are \$14,014,781, \$8,588,326, \$9,230,173 and \$9,512,360.

Included in the above long-term debt outstanding at December 31, 1976 are obligations having a par value of \$16,535,000 payable in United States currency which have been recorded in Canadian funds at \$17,302,059. The Canadian equivalent of these obligations at December 31, 1976 is approximately \$16,700,000.

4. Share capital

Authorized share capital is 2,105,729 shares of \$100 each of which 1,855,729 shares are outstanding and held by the Government of the Province of British Columbia

5. Commitments

At December 31, 1976 the railway has outstanding commitments for construction and equipment totalling approximately \$40,000,000, including approximately \$38,000,000 in connection with construction of the Dease Lake extension. In addition to these commitments, estimated costs to complete the Dease Lake extension total \$34,000,000 excluding interest.

The railway has significant lease commitments for rolling stock and additional minor lease commitments for equipment and real estate which expire during varying periods to 1991. Annual payments under lease contracts for the fiscal year ended December 31, 1976 were \$6,098,354 (1975 - \$6,083,663). The minimum average annual lease payments under existing leases at December 31, 1976 are payable as follows:

1977-1981	\$ 4,179,002
1982-1986	721,840
1987-1991	173,991

6. Contingent liabilities

The railway has received claims for unspecified additional compensation from certain contractors for work carried out on the Dease Lake extension. Certain other contractors have requested additional compensation of approximately \$2,000,000 for work carried out on other sections of the railway's roadbed. No provision has been made in the accounts for possible liability under these claims as management and legal counsel are of the opinion that all these claims will be dismissed without significant cost to the railway. Should any amounts become payable as a result of these claims, they will be accounted for as part of the cost of road property.

The railway has been advised by certain Indian band representatives of their intention to claim for damages in connection with construction of rail line over reserve lands. Any payments made in settlement of such claims should not be material and would be accounted for as part of the cost of the total road property.

7. Federal Anti-Inflation Legislation

The Anti-Inflation Board has advised the railway that it is of the opinion that the program of restraint should be implemented by reducing the compensation paid in 1976 to certain employees which exceed the allowable amounts by \$1,428,000. A recovery plan has been submitted to, but has not yet been approved by the Anti-Inflation Board. The railway may be subjected to penalties up to the amount of the overpayment if it is not successful in recovering the amount of the overpayment. No amount has been included in the accounts for this item.

8. Employee retirement plan

The majority of employees participate in a contributory retirement plan and are entitled to limited vested rights prior to retirement. As of December 31, 1975 the last date for which an actuarial valuation of the fund was made, there was no unfunded liability.

- 5 -

9. Remuneration of directors and officers

Total remuneration paid to five officers amounted to \$170,303 (six in 1975 - \$193,632). Remuneration paid to nine directors who were not officers of the railway amounted to \$21,425 (three in 1975 - \$9,000)

10. Subsequent events

On January 15, 1977, the railway issued sinking fund bonds in the amount of \$30,000,000 repayable on January 15, 2002 and bearing interest at 9.05%

AUDITOR'S REPORT

To the Minister of Finance
Province of British Columbia

I have examined the statement of assets and liabilities of the British Columbia Regional Hospital Districts Financing Authority as at March 31, 1977 and the related statement of receipts and disbursements for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Authority as at March 31, 1977 and the results of its financial activities for the year then ended in accordance with the accounting policies set out in Note 1 which have been applied on a basis consistent with that of the preceding year.

BRITISH COLUMBIA REGIONAL HOSPITAL DISTRICTS FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS

AS AT MARCH 31, 1977

1. Accounting Policies

The accounts of the Authority are maintained on a cash basis modified to include interest accrued on sinking fund investments.

The Authority issues debentures to provide funds for the purchase of debentures of various regional hospital districts. The terms and net proceeds of each Authority debenture issue are identical to terms and amount of Regional Hospital District debentures purchased. A sinking fund is maintained to provide for the retirement of Authority debentures at maturity.

Long-term investments and long-term debt are stated at par value. Sinking fund investments are stated at par value plus accrued interest.

2. Change in Statement Presentation

Income earned on sinking fund investments, and the corresponding reinvestment of the income by the sinking fund trustee have been reflected in the statement of receipts and disbursements.

This change has been applied retroactively, and the previous year's figures restated where applicable. Due to the nature of the Authority's financial transactions, this change does not affect the results of its financial activities.

3. Long-term Debt

Sinking fund instalments of \$7,412,366 are due in each of the next five fiscal years.

BRITISH COLUMBIA SCHOOL DISTRICTS CAPITAL FINANCING AUTHORITY

NOTES TO FINANCIAL STATEMENTS

AS AT MARCH 31, 1977

1. Accounting Policies

The accounts of the Authority are maintained on a cash basis modified to include interest accrued on sinking fund investments.

The Authority issues debentures to provide funds for the purchase of debentures of various school districts. The terms and net proceeds of each Authority debenture issue are identical to the terms and amount of School District debentures purchased. A sinking fund is maintained to provide for the retirement of Authority debentures at maturity.

Long-term investments and long-term debt are stated at par value. Sinking fund investments are stated at par value plus accrued interest. Balances in U.S. dollars included in the accounts are translated at par.

2. Change in Statement Presentation

Income earned on sinking fund investments, and the corresponding reinvestment of the income by the sinking fund trustee have been reflected in the statement of receipts and disbursements.

This change has been applied retroactively, and the previous year's figures restated where applicable. Due to the nature of the Authority's financial transactions, this change does not affect the results of its financial activities.

3. Long-term Debt

Sinking fund instalments of \$20,988,882 are due in each of the next five fiscal years.

AUDITORS' REPORT

To the Shareholders of
British Columbia Steamship Company (1975) Ltd.

We have examined the consolidated balance sheet of British Columbia Steamship Company (1975) Ltd. as at December 31, 1976 and the consolidated statements of loss and deficit and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the company as at December 31, 1976 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

BRITISH COLUMBIA STEAMSHIP COMPANY (1975) LTD.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 1976

I. ACCOUNTING POLICIES

(a) Principles of consolidation

The consolidated financial statements include the accounts of the company from the date of incorporation on May 5, 1975 and its subsidiary British Columbia Steamship Company Inc., from date of acquisition on April 30, 1975.

(b) Inventories

Inventories are valued at lower of cost and net realizable value.

(c) Depreciation

Depreciation, with the exception of the vessel which is amortized on a straight-line basis over ten years, is calculated on the diminishing balance method at the annual rates indicated in note 2.

(d) Organization costs

Organization costs are being amortized on a straight-line basis over ten years.

(e) Deferred charges

Deferred charges are being amortized on a straight-line basis over three years.

(f) Provision for refit

During 1975 company officials estimated that refit costs to ready the vessel "Princess Marguerite" for the 1976 operating season would amount to \$240,000 and this amount was charged against 1975 operations. Actual expenditures during 1976 amounted to \$371,000 and the difference of \$131,000 has been reflected as an expense of the current year. Company officials have estimated that refit costs to ready the vessel for the 1977 operating season will amount to \$410,000, and this amount has been charged against 1976 operations.

(g) On-board services

Food and labour costs of feeding the crew have been included in the expenses of the dining room rather than allocated to operating departments.

5. CONTRIBUTED SURPLUS

During the year the company acquired an interest in the vessel "Princess Marguerite" and deferred charges and is in the process of assuming demand debt formerly held by Crown Development Corporation. The value of the assets acquired exceeds the amount of liability being assumed by \$200,330 and this figure has been shown on the records of the company as contributed surplus.

6. COMMITMENT

The company has signed a letter of intent to enter into a lease agreement for new terminal facilities in Seattle. If this lease agreement is consummated, the company will become responsible for expending approximately \$200,000 for improvements to the Seattle terminal building as well as lease payments currently estimated to total \$76,500 per annum.

Notes to the Consolidated Financial Statements

1. Summary of significant accounting policies

(a) Consolidation

The consolidated financial statements include the accounts of the company and its subsidiaries, all of which are wholly-owned.

(b) Translation of foreign currencies

Where covered by forward exchange contracts, current assets and current liabilities in foreign currencies are translated into Canadian dollars at rates related to the contracts. Where not so covered, current assets and current liabilities are translated at exchange rates prevailing at the end of each year. Long term debt has been translated into Canadian dollars at the rate of exchange prevailing on the date of the June 29, 1973 reorganization. Revenues and expenses of foreign subsidiaries are translated at average exchange rates for each year.

(c) Short term investments

These investments are stated at cost, which approximates market value.

(d) Investments in associated companies

The investments in Haseltoncx, S.A. (50% owned) and Babine Forest Products Limited (24% owned) are accounted for on the equity method.

(e) Inventories

Logs, pulp chips and other raw materials are valued at the lower of average cost and replacement cost. Finished products (pulp and lumber) are valued at the lower of average cost and net realizable value. Supplies are valued at average cost.

(f) Property, plant and equipment

These assets are stated at cost. When such assets, except logging equipment, are disposed of in the normal course of business, the cost is removed from the asset accounts and charged to the accumulated depreciation account and the proceeds are credited to the accumulated depreciation account. When logging equipment is disposed of, the cost and related accumulated depreciation are removed from the accounts and any gain or loss is reflected in earnings.

(g) Depreciation, amortization and depletion

Depreciation, amortization and depletion are computed on original cost as follows:

Asset	Method
Pulp mills	4% composite rate; straight-line
Sawmills	4% to 6% composite rate; straight-line
Logging equipment	10% to 20% rate; diminishing balance
Timber cutting rights, roads and related facilities	current production divided by estimated total production available from such assets

	272,274	276,910

Less: Accumulated depreciation, amortization and depletion	195,441	216,046
	\$ 76,833	60,864

As a result of the June 29, 1973 reorganization, property, plant and equipment was written down by \$75,485,000 of which \$9,964,000 was applied against the net book value of specific assets and \$65,521,000 was added to accumulated depreciation, amortization and depletion.

Production of sulphite pulp was discontinued in October, 1976. The sulphite mill was fully depreciated in previous years and is currently being modified to produce kraft pulp (note 9). In 1976 fixed assets and

accumulated depreciation were both reduced by \$30,052,000, being the original cost of those sulphite mill assets which will not be utilized in the modification.

4. Bank indebtedness

In connection with the issue of the Promissory Notes referred to in note 6, the terms of the company's bank lines of credit will be amended so that any bank indebtedness will be unsecured.

5. Income taxes

In certain prior years, the company incurred cash losses and recorded in its accounts depreciation, including extraordinary write-downs of fixed assets, in excess of the amounts which it claimed for income tax purposes. The resulting potential tax benefits were not recognized in the accounts of those years because of the uncertainty of their ultimate realization. In 1976, a benefit of \$11,550,000 has been realized because the company will claim for tax purposes sufficient of such prior years' losses and depreciation charges to eliminate liability for substantially all income taxes other than logging taxes for the year.

The income tax value of the depreciable assets of the company at December 31, 1976 exceeds the value recorded in the accounts by approximately \$11,000,000.

The related potential future tax benefits will be recorded in future years to the extent that the excess value may be applied against future years' taxable earnings.

6. Long term debt

First mortgage bonds, payable in U. S. dollars, excluding the portion payable within one year which is included in current liabilities, are:

	<i>(Thousands)</i>	
	1976	1975
6-1/8% First Mortgage and Collateral Trust Bonds, due January 2, 1981 with annual sinking fund instalments. (1976 U.S. \$16,000,000; 1975 U.S. \$20,000,000)	\$15,971	19,964
5-3/8% First Mortgage and Collateral Trust Bonds, due July 1, 1985 with annual sinking fund instalments. (1976 U.S. \$25,000,000; 1975 U.S. \$27,500,000)	24,955	27,451
	\$40,926	47,415

The Province of British Columbia has unconditionally guaranteed payment of the principal and interest on the bonds.

In connection with the sulphite mill modification project (note 9), the company has agreed, subject to completion of formal documentation, to issue 10½% and 11½% Promissory Notes aggregating U. S. \$50,000,000 and Cdn. \$20,000,000 respectively. The notes, which will be issued in 1977 and 1978, will be due December 15, 1992, with annual principal payments commencing December 15, 1983 of U. S. \$5,000,000 in respect of the 10½% notes and Cdn. \$2,000,000 in respect of the 11½% notes. The notes will be unsecured and will not be guaranteed by the Province of British Columbia. The agreement under which the notes will be issued will include a restriction that, in general terms, dividends shall not exceed \$4,000,000 plus 50% of net earnings after December 31, 1976.

In connection with the issue of the notes, the trust deed securing the first mortgage bonds will be amended so that the bonds will be unsecured and rank equally with the notes. Repayment terms and interest rates will not be changed for the bonds, which will continue to be guaranteed by the Province of British Columbia.

Principal payments required on long term debt during the ensuing five years are \$6,568,000 in each of the years 1977 to 1980 and \$7,578,000 in 1981.

7. Pensions

Pension costs in respect of both current and prior years' service benefits under the company's pension plans are fully funded as at December 31, 1976.

8. Share capital

	<i>(Thousands)</i>	
	1976	1975
Non-Voting Shares without par value. Authorized 60,000 shares; issued 39,750 shares.	\$39,750	39,750
Common Shares without par value. Authorized 24,318,119 shares; issued 12,154,853 shares. (1975 — 12,151,453 shares)	29,022	29,000
	\$68,772	68,750

Other than with respect to voting, the Common Shares and Non-Voting Shares are equal and carry

the same rights including the right to payment of dividends and distributions of the same amount per share.

Under the company's stock option plan, 96,600 unissued Common Shares were reserved at December 31, 1976 for issue to key employees at prices equal to the market values on the dates of grant. The options are for a term of ten years and are exercisable after one year to the extent of 20% a year on a cumulative basis. At December 31, 1976 there were outstanding options, which will expire on February 25, 1984, for the purchase of 71,400 shares at \$6.375 per share, and other options, which will expire on various dates in the period April 22, 1984 to November 29, 1986, for the purchase of 18,000 shares at prices ranging from \$4.325 to \$7.31. During 1976, 3,400 shares were issued for \$22,000 cash under the plan.

9. Commitments

The Prince Rupert sulphite mill is currently being modified to the manufacture of kraft pulp, with completion scheduled in late 1978. The estimated cost of the modification, including an allowance for inflation, is \$100,000,000 before capitalization of financial costs prior to start-up.

In connection with the modification, the company is making certain related capital expenditures on the existing Prince Rupert kraft mill. The estimated cost of these expenditures, including an allowance for inflation, is \$18,000,000.

For these two programs, \$18,083,000 has been expended to December 31, 1976 and \$58,000,000 is budgeted for expenditure in 1977. As at December 31, 1976, \$49,000,000 has been contractually committed.

Annual rental obligations under long term leases amount to approximately \$978,000 in 1977, \$1,011,000 in 1978, \$731,000 in 1979, \$728,000 in 1980 and \$690,000 in 1981.

10. Remuneration of directors and senior officers

The aggregate direct remuneration paid or payable to directors and senior officers amounted to \$765,000 in 1976.

11. Anti-Inflation Act

The company is subject to restraint of profit margins, prices, dividends and compensation under the Anti-Inflation Act. The company did not earn excess revenue and complied with the restrictions relating to payments of dividends and compensation during the year ended December 31, 1976.

12. Subsidiary companies

Calum Lumber Limited

HEALTH FACILITIES ASSOCIATION OF BRITISH COLUMBIA

NOTES TO THE FINANCIAL STATEMENTS
MARCH 31, 1977

1. Incorporation

The Health Facilities Association of British Columbia was incorporated on October 15, 1975 under the Societies Act of British Columbia. Its object is to assist in financing the capital costs of hospital projects, medical and health facilities, and community human resources and health centres in the Province of British Columbia. The Association commenced operations on April 1, 1976.

2. Source of funds

The Association relies principally upon grants from the Province of British Columbia as a source of funds for the interest and sinking fund payments required under the terms of the debentures issued by the Association.

3. British Columbia Medical Centre Fund

During the period the balance remaining in the British Columbia Medical Centre Fund was transferred to the Health Facilities Association, in trust, on the understanding that the funds would be held and expended only for the purposes set out in the Medical Centre of British Columbia Act, and in compliance with the applicable provisions of the Special Funds Appropriation Act, 1974.

4. Commitments and contingent liabilities

- a) Unexpended balances of approved construction projects totalled \$287,402 as at March 31, 1977.
- b) The Association has approved the issue of a debenture for \$1,500,000, the proceeds of which will be used to retire an existing debenture of the same amount which was issued by the British Columbia Medical Centre on December 10, 1975.

Housing Corporation of British Columbia

Notes to financial statements

October 31, 1976

1. Change of name

Pursuant to a special resolution of shareholders, the name of the corporation was changed on November 18, 1976, from Dunhill Development Corporation Ltd. to Housing Corporation of British Columbia. The names of two subsidiary companies were similarly changed as of November 26, 1976, as follows:

W.K.P. Construction Ltd. changed to
Dunhill Development Corporation
Fisher Developments Ltd. changed to
HCBC Construction Ltd.

2. Significant accounting policies

a) Principles of consolidation

The consolidated financial statements include the accounts of Housing Corporation of British Columbia and its subsidiaries (Note 1) which are all 100% owned:

Dunhill Development Corporation
(formerly W.K.P. Construction Ltd.)
Crown Lumber Limited
HCBC Construction Ltd.
(formerly Fisher Developments Ltd.)
Venture Realty Ltd.

Subsequent to the end of the year, the corporation sold its shares of Crown Lumber Limited at book value.

The consolidated financial statements of October 31, 1975, also included the accounts of the following subsidiary companies which were wound up in 1976:

Dunhill Homes Ltd.
Dunhill Holdings Ltd.
Georgia Park Holdings Ltd.

b) Carrying charges capitalized

Property carrying costs which include interest and property taxes, are capitalized from the date of acquisition of the land.

c) Properties and inventory (Note 4)

These assets are reflected in the accounts at the lower of cost and net realizable value.

d) Depreciation and amortization

Depreciation and amortization is calculated on the straight-line method over estimated useful life of the applicable assets.

Auditors' Report

The Lieutenant-Governor in Council
Province of British Columbia

We have examined the consolidated balance sheet of Housing Corporation of British Columbia as at October 31, 1976 and the consolidated statements of earnings and retained earnings and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these consolidated financial statements present fairly the financial position of the company as at October 31, 1976 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

AUDITORS' REPORT

The Honourable Dr. P.L. McGeer,
Minister of Education,
Province of British Columbia

We have examined the balance sheet of the Insurance Corporation of British Columbia as at February 28, 1977 and the statements of general operations and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the

Corporation as at February 28, 1977 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied, except for the changes in the methods of accounting for investments and start-up costs referred to in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

Our examination also included the statement of operations of the Automobile Insurance Act Fund for the year ended February 28, 1977. In our opinion this statement presents fairly the results of the operations of the Fund in accordance with

generally accepted accounting principles applied, except for the changes in the methods of accounting for investments and start-up costs referred to in Note 3 to the financial statements, on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS February 28, 1977**1. STATUS OF THE CORPORATION**

The Insurance Corporation of British Columbia (ICBC) is incorporated as a Crown corporation under the Insurance Corporation of British Columbia Act S.B.C. 1973 (1st session), Chapter 44, assented to April 18, 1973. By subsequent approval of the Lieutenant-Governor in Council, and in accordance with the Act, ICBC has the power and capacity to act as an insurer and reinsurer in all classes of insurance and to operate and administer the plan of automobile insurance described in the Automobile Insurance Act (AIA).

By regulation under the AIA, the plan of automobile insurance is administered as a Fund which is an entity for financial accounting purposes. Also by regulation, a statement showing the results of the operation of the Fund is included with the financial statements of ICBC and the balance of the Fund, which represents its net operating position, is reflected in the balance sheet of ICBC. The Fund consists of the revenues and expenses attributable to the AIA Fund operations. All assets and liabilities are held by ICBC.

The Government of the Province of British Columbia has provided the opportunity for private insurers to re-enter the field of automobile insurance extension coverage in British Columbia in competition with the Corporation.

Effective March 1, 1976 the Superintendent of Insurance commenced licensing private insurance companies to offer extension automobile coverage in British Columbia.

2. BASIS OF REPORTING

As prescribed by Section 18(3) of the Insurance Corporation of British Columbia Act, the financial statements of ICBC are presented in accordance with generally accepted accounting principles. In this respect, the reporting generally conforms to that suggested in the 1974 research study "Financial Reporting for Property and Casualty Insurers" of the Canadian Institute of Chartered Accountants. Not all property and casualty insurance companies in Canada report on this basis.

Certain 1976 comparative figures have been reclassified to conform with the classifications used in the current year.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES*Investments*

Investments are carried as follows:

- Short-term deposit — at cost or amortized receipts, call loans and notes — cost plus accrued interest.
- Bonds — at amortized cost plus accrued interest.
- Equities — at cost.

Provisions for permanent decline in values of investments are made where appropriate (none during 1976/77 and 1975/76).

ICBC adopted the above method of determining the carrying value of investments effective March 1, 1976. Previously investments had been carried at market value, which for short-term notes and loans represented a recalculated yield to maturity using the current interest rate for such investments at the year end date. This method, however, did not necessarily reflect the realizable or market value of these investments as there was not a ready trading market nor a readily available quoted market value. Market quotations were used to determine the carrying value of bonds and equities. The practice of carrying investments at market value was susceptible to the influence of sudden changes in interest rates and other fluctuations in the money market and resulted in the recording of unrealized gains or losses as part of investment income. Had the market value method been applied for the current year, investments at February 28, 1977 would have been decreased by approximately \$1,000,000, and investment income for the year in the AIA Fund and General Operations would have decreased by approximately \$950,000 and \$50,000 respectively.

Premium Acquisition Expenses

Premium taxes and commissions, including those relating to subsequent year's Automobile Insurance Act Fund premiums, are charged to expense over the terms of the insurance contracts to which such costs relate.

Unpaid Claims

Unpaid claims includes a provision for reported and unpaid claims, based on the claims settlement experience of ICBC, current trends and a detailed review of claims files, and an estimate for unreported claims, as follows:

	1977	1976
Reported and Unpaid Claims		
Automobile Insurance Act Fund	\$164,098,000	\$141,264,000
General Insurance	5,777,000	6,881,000
	<u>169,875,000</u>	<u>148,145,000</u>
Unreported Claims		
Automobile Insurance Act Fund	18,000,000	18,900,000
General Insurance	848,000	831,000
	<u>18,848,000</u>	<u>19,731,000</u>
Total	\$188,723,000	\$167,876,000

The estimate for unreported claims is based on ICBC's experience relating to the delay between the date a loss occurs and the date a related claim is recorded by ICBC, supplemented by a review of claims recorded subsequent to the fiscal year end. These estimates are continuously reviewed against actual reported claims. Significant deviations between estimated and actual claims experience are investigated and the results utilized to refine the estimating procedures.

Depreciation and Amortization

Depreciation is provided on a straight-line basis commencing in the month following that in which assets are placed in service at rates which will amortize the original cost over the useful life of each asset.

Leasehold improvements are amortized over the term of each lease plus the first renewal period where appropriate.

Start-up Costs

Costs associated with the commencement of operations of ICBC and the AIA Fund had been deferred and were being amortized on a straight-line basis from March 1, 1974, or from the date incurred, whichever was later, to February 28, 1979. In view of the re-entry into British Columbia of private insurers in competition with ICBC, the changes in systems design being made and management's determination that the start-up phase of ICBC was complete, this policy was changed in the current year and all unamortized deferred costs at March 1, 1977 have been expensed in the fiscal year. This resulted in an additional charge to operations of \$9,917,000, of which \$9,797,000 has been charged to the AIA Fund and \$120,000 to General Operations.

Premiums in Advance

The liability for premiums in advance consists of vehicle premiums received and financed prior to March 1, 1977 relating to the immediately following fiscal year.

Unearned Premiums

The liability for unearned premiums is the portion of premiums that relates to the unexpired term of each general insurance contract, or driver's premium.

COMMITMENTS

ICBC is committed to make the following payments during the next five years on property and equipment leased for periods more than one year:

Fiscal year to February 28, 1978	\$5,300,000
Fiscal year to February 28, 1979	4,500,000
Fiscal year to February 29, 1980	1,700,000
Fiscal year to February 28, 1981	1,500,000
Fiscal year to February 28, 1982	1,000,000

GOVERNMENT OF CANADA ANTI-INFLATION LEGISLATION

The Anti-Inflation Act which became effective on October 14, 1975 provides for the restraint of prices and profits and compensation of employees to December 31, 1978.

ICBC is required to comply with this Legislation as it relates to employee compensation. Management's review of its operations February 28, 1977 indicates that ICBC is in compliance with the Legislation in all material respects.

In accordance with the agreement between the Government of British Columbia and the Federal Government, ICBC is comply-

ing with the Legislation related to the restraint of prices and profits, and has committed to distribute a portion of the surplus in the Automobile Insurance Act Fund through the introduction of a Safe Driving Discount during the fiscal year ending February 28, 1978. This Safe Driving Discount program will result in a reduction of approximately \$52,300,000 in 1977/78 vehicle premiums which will be charged against operations of the Fund in that fiscal year. Premiums received in advance for 1977/78 are shown on the balance sheet net of the Safe Driving Discount.

9. RESERVES

AIA Fund

The AIA Fund has appropriated from surplus a Safe Driving Discount Reserve of \$52,300,000 and a Rate Stabilization Reserve of \$11,500,000.

The Safe Driving Discount Reserve has been appropriated to reflect the impact of the Safe Driving Discount program established for the fiscal year ending February 28, 1978.

The Rate Stabilization Reserve has been appropriated to lessen the potential impact of significant variations in claims loss experience in future years, on vehicle insurance premiums charged in British Columbia.

General Operations

ICBC has appropriated from General Operations retained earnings a Catastrophe Reserve of \$300,000 and a Rate Stabilization Reserve of \$500,000.

As is the practice in the industry, a Catastrophe Reserve has been established to reflect the impact of possible losses arising from catastrophic occurrences. Catastrophes such as earthquakes, storms, or conflagration occur at random and the losses arising could be substantial.

The Rate Stabilization Reserve has been appropriated to lessen the potential impact on General Insurance premiums of significant variations in claims loss experience in future years.

10. PENSION PLAN

Certain employees participate in a contributory pension plan and are entitled to vested interests prior to retirement.

Employees contribute specified percentages of salaries. ICBC contributes to the Plan all amounts as are actuarially determined as being required, over and above employee contributions, to fund the benefits earned by employees under the Plan.

As of February 28, 1977 all past service liabilities of the Pension Plan have been fully funded. Contributions by ICBC for the year ended February 28, 1977 were \$255,000 (1976—\$357,000).

NOTES TO FINANCIAL STATEMENTS

FOR THE TEN MONTHS ENDED DECEMBER 31, 1976

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Inventories

Inventories of lumber, logs, plywood, veneer and peeler blocks are valued at the lower of cost and net realizable value. Inventoried equipment and supplies are valued at the lower of cost and replacement cost.

(b) Depreciation, amortization and depletion

The company records depreciation on buildings and equipment acquired from Eddy Match Company, Limited (note 3) on the straight-line method at rates varying between 3% and 20% based on net book values. For those assets acquired subsequently, depreciation is recorded using the same method and rates based on cost.

Logging road costs are amortized on the basis of production divided by the estimated recoverable timber to be removed over the roads.

Costs of timberlands and timber cutting rights are depleted on the basis of production divided by the estimated recoverable timber to be removed from the timber holdings.

	<u>3,000,000</u>	<u>2,300,000</u>

The term loan is secured by a general assignment of accounts receivable and by a first fixed and floating charge over the company's assets and undertakings.

The term loan is repayable as follows:

	\$
December, 1977	600,000
December, 1978	800,000
December, 1979	1,000,000
December, 1980	1,200,000

- (c) The company and British Columbia Cellulose Company have agreed that the advances from British Columbia Cellulose Company shall not be repaid until the bank loans are retired.

5. INCOME TAXES

The company is a Provincial Crown Corporation and accordingly, is exempt from Federal and Provincial income taxes. Although the company is liable for Provincial logging taxes on profits from substantially all of its operations, no taxes are exigible for the year since those operations have not resulted in a profit for logging tax purposes.

Deferred logging taxes have not been accrued since the undepreciated capital cost continues to exceed the net book value of depreciable assets.

6. ANTI-INFLATION LEGISLATION

By virtue of an agreement dated June 23, 1976 between the Province of British Columbia and the Federal Government, the company is subject to restraint of profit margins, prices and dividends under the terms of the Anti-Inflation Act and Regulations with effect from June 23, 1976 and restraint of compensation with effect from October 14, 1975. The company believes that it has complied in all material respects with the provisions of the agreement.

7. STATUTORY INFORMATION

The aggregate direct remuneration paid or payable to directors and senior officers amounted to \$143,969 for the ten months ended December 31, 1976.

LEGAL SERVICES COMMISSION

AUDITOR'S REPORT

To the Lieutenant-Governor in Council:

I have examined the statement of financial position of the Legal Services Commission as at March 31 1977 and the statement of income and expenditure for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Commission as at March 31 1977 and the results of its operations for the year then ended in accordance with generally accepted accounting principles which, except for the changes relating to amortization of fixed assets, allocations of certain expenses and refundable surpluses as referred to in Notes 2, 3 and 4, have been applied on a basis consistent with that of the preceding seven month period.

LEGAL SERVICES COMMISSIONNotes to the Financial StatementsMarch 31 1977

1. The Legal Services Commission was established as a corporation pursuant to the Legal Services Commission Act, S.B.C. 1975 (1st session), Chapter 36, assented to June 18 1975. The Act was proclaimed to be in force on August 1 1975 by B.C. Regulation 520/75.

An Order-in-Council of August 14 1975 appointed the five commissioners, and the Commission officially commenced operations on September 1 1975.

In accordance with the Act, the object and purpose of the Commission is to see that legal services are effectively provided to, and readily obtainable by, the people of British Columbia, with special emphasis on those people to whom those services are not presently available for financial or other reasons.

2. Fixed assets of the Commission are amortized over 5 years, on a flat rate basis. No amortization of fixed assets was provided for during the initial partial fiscal period ended March 31 1976.

3. During the year ended March 31 1977 the Commission has allocated to projects certain expenses that were allocated to administration during the previous fiscal period. The expenses involved include salaries, employee benefits, consultants, video and radio service, and travel. The comparative figures for the previous seven month fiscal period have not been adjusted to reflect this change.
4. Under the terms of the contract between the Legal Services Commission and the Community Law Offices and other Societies, any surplus accumulated by the grantees from the funds paid by the Commission as at March 31 1977 is refundable to the Commission. A provision of \$100,000 has been recorded to reflect these refundable surpluses as at March 31 1977. No provision was recorded for the seven month period ended March 31 1976.

MEDICAL SERVICES PLAN OF BRITISH COLUMBIA

To the Minister of Health
Province of British Columbia

AUDITOR'S REPORT

I have examined the statement of working capital and financial position of The Medical Services Plan of British Columbia operating under the direction and control of the Medical Services Commission of British Columbia as at March 31, 1977 and the related statements of operations and changes in cash position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion these financial statements present fairly the financial position of The Medical Services Plan of British Columbia as at March 31, 1977 and the results of its operations for the year then ended, in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1977

1. Significant Accounting Policies

a) Income determination

Premium and interest income are recognized only when cash is received. Premiums received in advance are not included in income until the period in which income is earned.

b) Liability for benefits

The liability for benefits, consisting of unrepresented and unprocessed claims for medical care and additional benefits, has been estimated on the basis of past experience of the Commission.

c) Fixed assets

The cost of fixed assets acquired is charged to administration expense.

2. Comparative Figures

The 1976 comparative figures have been restated, where necessary, to conform with the classification adopted for the year ended March 31, 1977.

AUDITORS' REPORT

The Lieutenant-Governor in Council

Province of British Columbia

We have examined the balance sheet of Ocean Falls Corporation as at December 31, 1976 and the statements of income and deficit and changes in financial position for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as we considered necessary in the circumstances.

In our opinion, these financial statements present fairly the financial position of the corporation as at December 31, 1976 and the results of its operations and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 1976

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Inventories

Inventory of finished newsprint is valued at the lower of cost or net realizable value. Inventories of work in progress, raw materials, supplies and logs are valued at the lower of cost or replacement cost.

(b) Fixed assets

Buildings and equipment are depreciated on a straight-line basis over their estimated useful lives at annual rates ranging from 2% to 33%. Depreciation charged to operations in 1976 and included in operating costs and expenses amounted to \$365,192 (1975 - \$157,580).

2. INVENTORIES

Inventories consist of:

	<u>1976</u>	<u>1975</u>
Finished newsprint	\$1,868,499	\$ 282,020
Work in progress	171,978	129,238

Supplies	<u>1,517,418</u>	<u>1,114,785</u>
	<u>\$4,520,587</u>	<u>\$2,652,689</u>

3. BANK INDEBTEDNESS

Bank indebtedness is secured by a general assignment of accounts receivable, inventory and fixed assets.

4. DEMAND LOAN, PROVINCE OF BRITISH COLUMBIA

The loan bears interest at the chartered bank prime interest rate as announced from time to time and is secured by a demand debenture with a first charge on the real and personal property, works and undertakings of the corporation. Interest is payable on the principal amount compounded quarterly. All interest expense for 1976 amounting to \$508,853 was paid.

5. STATUTORY INFORMATION

Aggregate remuneration of directors and senior officers (as defined in the B.C. Companies Act) amounted to \$238,658 (1975 - \$217,750).

6. COMPARATIVE FIGURES

Working capital deficiency for 1975 has been decreased by \$24,032 to reflect presentation adopted for 1976.

- 2 -

7. COMMITMENTS

Certain mill equipment is leased under long-term contracts. Annual rental payments aggregating approximately \$187,500 are due in 1977.

The corporation is committed under certain circumstances to repurchase the land and houses sold to employees. The cost of repurchase would not exceed the sales price unless authorized improvements have been made.

The corporation is also committed to capital expenditures of approximately \$1,300,000.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 1976

1. PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of the parent company together with its wholly-owned subsidiaries, Plateau Timber Ltd. and Nechako Valley Pulp Mill Ltd.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Inventories

Log and lumber inventories are recorded at the lower of average cost and net realizable value.

Depreciation and Amortization

The company records depreciation on buildings and mill equipment on the declining-balance method at rates varying between 4% and 30%.

Depreciation on logging equipment is on a straight-line basis at 20%.

Logging road costs and timber rights are amortized on the basis of timber removed from each area.

Interest

The company capitalized interest on the financing of construction in progress during the period of construction.

Income taxes

No provision is made for income taxes on earnings since the company is exempt by virtue of its shareholdings. Logging taxes are recorded on the tax allocation basis.

Comparative Figures

Where applicable, comparative figures have been restated to conform with the presentation used in the current year. These restatements have had no effect on reported earnings for 1975 and 1976.

AUDITOR'S REPORT

To the Shareholder of
Provincial Rental Housing Corporation:

I have examined the statement of financial position of Provincial Rental Housing Corporation as at March 31, 1977 and the statements of accumulated return of investment and changes in financial position for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position and accumulated return of investment of Provincial Rental Housing Corporation as at March 31, 1977, and the changes in its financial position for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

PROVINCIAL RENTAL HOUSING CORPORATIONNotes to Financial StatementsMarch 31, 19771. Change of Name and Present Function:

The Corporation was originally acquired in September 1973 under the name of Pemco Holdings Ltd. By special resolution dated April 12, 1976, its name was changed to British Columbia Housing Corporation and subsequently, pursuant to a further special resolution dated December 15, 1976, the present name of Provincial Rental Housing Corporation was adopted.

The Corporation is designed to act as a holding company for the purpose of recovering the provincial costs of low income/senior citizen rental housing and, in its own right, to negotiate with Central Mortgage and Housing Corporation for loan assistance under Section 43 of the National Housing Act, as further described in Note (4).

2. Significant Accounting Policies:(a) Accumulated Return of Investment

Amortization charges to the rental projects are computed as if Capital Costs were loans at interest repayable over the term by equal payments of blended principal and interest. Under this concept, the return of capital is small in the early years, but substantial in the later periods. The receipts attributable to interest are considered to apply against interest expense and the excess as a reduction of the investment, after providing for any other costs which may have been incurred.

(b) Interest Expense

Interest expense on loans negotiated with Central Mortgage and Housing Corporation is that agreed upon at the time of the loan commitment and varies from 8 5/8% to 10 3/4%, amounting to \$1,411,567 for the year. Interest expense on advances from the Housing Fund has been calculated at the same rates as the federal loans in respect of properties where federal loans were subsequently secured; at the rates provided in the partnership agreements for the capitalization of interest during construction in the case of jointly owned ventures; and at amortization interest rates for wholly funded properties. Interest to Housing Fund amounted to \$5,198,732 and the total interest so calculated amounted to \$6,610,299 for the year.

Notes to Financial Statements - page 2(c) Insurance

While not reflected in the accounts at year end, the Corporation has decided to insure all properties eligible for federal loans under Section 43 of the National Housing Act, so as to secure a source of funds for loan repayment in the event of property loss by fire or lightning. Under a 90% co-insurance clause the coverage amounts to \$47,872,019, requiring payment of a premium of \$53,617 in the 1978 fiscal year.

3. Investment in Rental Housing

Effective April 1, 1976, the Corporation was authorized to acquire all the completed rental projects then vested in the Housing Fund, Ministry of Municipal Affairs and Housing, at the values at which they were carried in the accounts of the Fund. Thereafter, as projects were completed and costs certified by the construction supervisor, Housing Corporation of British Columbia, and agreed to by Central Mortgage and Housing Corporation, such projects were conveyed to the Corporation as at the date management was undertaken by the property managers, British Columbia Housing Management Commission.

Three separate classes of property have been so acquired:

- a) Properties wholly owned by the Province, but eligible for federal financing up to 90% of cost.
- b) Properties wholly owned and funded by the Province.
- c) A 25% interest in Federal/Provincial joint venture projects.

As of March 31, 1977, the official transfer of title of all properties from the Province of British Columbia to Provincial Rental Housing Corporation had not been legally effected. It is the intention of both the Province and the Corporation that legal transfer of all rental properties shown in the accompanying financial statements take place as soon as possible. Rental properties in which legal transfer of title had not taken place at March 31, 1977, were:

Properties eligible for federal loans	\$ 10,738,232
Properties wholly funded by the Province	4,453,931
Provincial share of joint F/P ownership	11,836,904

Total properties for which legal transfer
of title had not taken place at March 31, 1977. \$ 27,029,067

Notes to Financial Statements - page 3

4. Long Term Debt

The Corporation was declared to be a Housing Corporation under Section 6 of the Department of Housing Act by Order-in-Council #986 of March 23, 1976, and the funds necessary to acquire its present properties were advanced from the Housing Fund by virtue of sub-section 3 of Section 5 of the subject Act. These advances are on open account and it is the intention of the Corporation to repay these from annual amortization receipts.

Some 43 of the projects were eligible for federal loans under Section 43 of the National Housing Act, and loans have been negotiated on 20 of these as at the fiscal year end in a total of \$33,733,288 as outlined in Schedule I. These loans are secured by mortgage debentures providing specific charges against the relevant properties, but the debentures are not registered in the Land Registry by agreement between the parties to use a non-registerable document. Repayment of principal and interest is generally amortized over a period of 50 years. Subsequent to the fiscal year end additional loan proceeds of \$8,521,399 have been received and there are in process further loans aggregating \$13,870,293, comprising a total of 40 loans under Section 43. Repayment of these debts may extend to the year 2027.

5. Amortization Receipts

Amortization receipts are the amounts charged to the rental projects annually as amortization of capital costs, which amounts are determined by agreement between the Federal/Provincial authorities who jointly subsidize the operating deficits of these low income/senior citizen housing units. The funds so accumulated are paid out once a year by B.C. Housing Management Commission, the property managers.

Generally, the amortization charges are calculated to recover costs over a period of 50 years and the fiscal policies of the Corporation are arranged accordingly as in Note (2).

6. Comparative Figures

The Corporation was inactive until April 1, 1976. As comparative figures would not be meaningful, they have not been disclosed.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 1977

1. Accounting policies:

(a) Principles of consolidation-

These consolidated financial statements include the accounts of the following wholly-owned subsidiary companies:

V I T Holdings Ltd.
Thompson-Okanagan Transit Ltd.
Vancouver Island Transit Ltd.

V I T Holdings Ltd., either directly or through a subsidiary, owns 98.4% of the following companies:

Vancouver Island Transportation Company Limited
Vancouver Island Coach Lines Limited
Gray Line & Empress Taxi & Sightseeing
Company Limited
Imperial Charter Service Company Limited
British Columbia Parlour Car Tours Limited

(b) Fixed assets-

Fixed assets acquired through the acquisition of shares of subsidiaries are stated at fair value determined at the date of acquisitions. Other fixed assets are stated at cost.

The cost of maintenance, repairs and minor renewals or replacements of property and equipment are charged to operating and maintenance expense. The costs of major replacements, extensions and betterments are capitalized in the property and equipment accounts. Upon retirement or disposal of such assets the costs thereof and the related accumulated depreciation or amortization are eliminated from the accounts and any gains or losses are reflected in the consolidated statement of income and deficit.

Notes
page 2

Depreciation is provided on a straight-line basis at the following rates:

Office furniture and equipment	7-1/2%
Buildings	1-1/2% and 1-7/8%
Automotive equipment	7%

Leasehold improvements are amortized at rates related to the term of the leases.

All buses operated by Vancouver Island Transit Ltd. and Thompson-Okanagan Transit Ltd. are leased to these subsidiaries by the Ministry of Municipal Affairs and Housing of the Province of British Columbia at an annual cost of \$1; the subsidiaries being responsible for all operating, repair and maintenance costs.

(c) Franchises and goodwill-

Franchises and goodwill originally comprised the excess of the purchase price over the net book value of identifiable assets at the date of acquisition of Vancouver Island Transportation Company Limited by V I T Holdings Ltd. and the excess of the purchase price over the net fair value of identifiable assets at the date of acquisition of subsidiaries by T. S. Holdings Ltd.

Goodwill in the amount of \$899,916 arising from the acquisition of subsidiaries by T. S. Holdings Ltd. is being amortized on a straight-line basis over 40 years by an annual charge of \$22,498; the unamortized balance being \$854,920 (1976 - \$877,418).

To recognize the loss in value of other goodwill and franchises \$231,900 has been charged in the accounts and is reflected in the consolidated statement of income and deficit as an extraordinary item.

(d) Income taxes-

As a crown corporation of the Province of British Columbia the company and its wholly-owned subsidiaries are exempt from income taxes. However, Vancouver Island Transportation Company Limited (a 98.4% owned operating company), is subject to income taxes and accordingly follows the tax allocation basis of accounting for income taxes. The deferred income taxes of \$248,000 as shown in the balance sheet arose in prior years principally from depreciation claimed for income tax purposes in excess of depreciation claimed for accounting purposes.

V I T Holdings Ltd. (a wholly-owned subsidiary) is endeavouring to acquire the remaining minority shares of its subsidiary, Vancouver Island Transportation Company Limited. Inasmuch as the subsidiary would no longer be subject to income taxes if it were wholly-owned, the balance of deferred income taxes may never become payable.

It is the opinion of Counsel that subsidies received by Vancouver Island Transportation Company Limited from the Province of British Columbia represent income subject to income taxes. Accordingly, the loss carry-forward for income tax purposes of \$514,500 as reported in the Notes to the Financial Statements for the fiscal year ended March 31, 1976 has been eliminated with retroactive effect to March 31, 1976, having now recognized the subsidiary's 1975-76 subsidies of \$490,000 as income for income tax purposes and giving consideration to other minor adjustments.

	<u>36,000</u>	<u>228,042</u>
	<u>\$138,000</u>	<u>\$ 20,000</u>

During the year the company restructured its long-term debt by obtaining a bank loan to retire the debenture payable and the mortgage payable.

The bank loan is secured by a guarantee in the form of a letter of comfort to the bank given by the Ministry of Municipal Affairs and Housing of the Province of British Columbia.

5. Anti-Inflation Programme:

The company is subject to, and believes it has complied with, controls on prices, profits and compensation under the federal government's anti-inflation programme.

6. Pension Plan:

Effective September 1, 1976 a subsidiary, Vancouver Island Transportation Company Limited, introduced a retirement plan which covers substantially all its employees. This retirement plan replaces all prior pension plans and includes all benefits payable thereunder up to August 31, 1976.

The retirement plan provides improved pension benefits with retroactive effect for current employees who were, at August 31, 1976, members of the

prior plans, and enabled other employees, at their option, to acquire past service benefits by making a lump-sum payment based on the period of time they were eligible to contribute to any of the prior plans. As determined by an actuarial valuation the principal amount of the unfunded liability for past service benefits for all members of the new plan amounted to \$1,704,850 as at September 1, 1976. The subsidiary intends to amortize this unfunded liability, together with interest thereon at 6% per annum, over a period of 25 years by annual payments of \$133,369, commencing in the 1977-78 fiscal year.

7. 1976 comparative figures:

Certain 1976 comparative figures have been reclassified for conformity with 1977.

8. Subsidies:

	<u>Year ended March 31</u>	
	<u>1977</u>	<u>1976</u>
From the Province of British Columbia:		
Vancouver Island Transportation Company Limited	\$1,060,000	\$490,000

From the City of Kamloops:		
Thompson-Okanagan Transit Ltd.	<u>153,772</u>	<u>-</u>
	<u>\$1,641,894</u>	<u>\$637,229</u>

By arrangement, operating deficits incurred by Thompson-Okanagan Transit Ltd. are subsidized equally by the Province of British Columbia and the City of Kamloops.

9. Operations:

Effective October 1, 1976 Thompson-Okanagan Transit Ltd. (a previously inactive wholly-owned subsidiary) assumed responsibility for operating the city transit services in Kamloops, British Columbia. During the six months ended March 31, 1977 the subsidiary realized operating revenues of \$161,000 and incurred operating expenses of \$468,000.

VANCOUVER RESOURCES BOARD

AUDITOR'S REPORT

To the Honourable Minister of Human Resources,
Province of British Columbia
and Vancouver Resources Board

I have examined the balance sheet of the Vancouver Resources Board as at March 31, 1977 and the statement of operations for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Board as at March 31, 1977 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

VANCOUVER RESOURCES BOARD
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1977

1. STATUS OF THE BOARD

a) Commencement of operations

The Vancouver Resources Board was established in accordance with Section 24 of the Community Resources Boards Act, S.B.C. 1974, Chapter 18, assented to June 8, 1974 and proclaimed to come into force on November 21, 1974. On various dates between April 1974 and March 1975, the Board, acting as an agent of the Ministry of Human Resources, assumed the functions formerly administered by the City of Vancouver Welfare Department, the Children's Aid Society of Vancouver and the Children's Aid Society of the Catholic Archdiocese of Vancouver. Order-in-Council number 3235 of October 9, 1975 ordered that the duties, authorities and responsibilities vested in a regional or district office of the Ministry of Human Resources be delegated to the Vancouver Resources Board effective April 1, 1975, and accordingly the Board assumed the remaining assets and liabilities of the region as of that date.

b) Subsequent event

It should be noted that on September 27, 1977 Bill #65 entitled Community Resources Boards Amendment Act, 1977 was passed by the Legislative Assembly. The stated purpose of this Bill is to amend the Community Resources Boards Act to provide for the full integration of the Vancouver Resources Board into the Ministry of Human Resources. The effective date of this integration is to be January 1, 1978.

2. SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Board and the disclosure of its financial information conform with generally accepted accounting principles as they relate to government funded organizations and include the following:

a) Fixed assets

For record purposes only fixed assets are shown at a nominal value of \$1. All expenditures for land, buildings, furniture and equipment, and automobiles are charged to operations during the period they are incurred. This policy conforms with the reporting requirements of the Ministry of Human Resources. The cost of fixed assets which has been charged to operations is as follows:

	<u>1977</u>	<u>1976</u>
Furniture and equipment	\$ 215,772	\$ 321,656
Automobiles	<u>59,946</u>	<u>29,155</u>
	\$ 275,718	\$ 350,811
	=====	=====

VANCOUVER RESOURCES BOARD

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 1977

b) Non-owned assets and related liabilities

In 1975, when the Board assumed the responsibilities formerly administered by the Children's Aid Society of Vancouver and the Children's Aid Society of the Catholic Archdiocese of Vancouver, all the assets owned and liabilities incurred up to the takeover date by the two societies were to be officially transferred to the Crown in Right of the Province of British Columbia. To date such official transfer has not been legally effected, except for the automobiles which were transferred to the Board in February 1977. Although the Board has been administering these assets and liabilities on behalf of the Province of British Columbia, they are not included in the balance sheet.

	\$1,250,061	\$1,321,370
	=====	=====

iii) Mortgages payable

Of mortgages payable as at March 31, 1976, totalling \$310,006, principal payments totalling \$305,436 were made which reduced the amount outstanding to \$4,570 as at March 31, 1977. The one mortgage still outstanding is secured by a charge on a group home located in Vancouver at an interest rate of 8% and is due in equal monthly payments of \$250 of blended principal and interest up to November 30, 1978. The principal payments of \$305,436 together with interest of \$20,841 have been charged to operations and are included in building occupancy expenditure.

VANCOUVER RESOURCES BOARD
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1977

3. TRUST FUND LIABILITIES

On March 31, 1977, in accordance with a formal agreement with the City of Vancouver, trust funds in the amount of \$23,998, belonging to certain residents of an adult care facility were transferred to the Board. These funds are to be managed in accordance with the terms of that agreement.

The Board is also administering a further \$9,013 for adults who are unable to manage their own affairs and is holding \$8,268 for transfer to the Public Trustee pursuant to the Protection of Children Act.

4. CONTRACTS AND COMMITMENTS

a) Contracts

The Board has entered into a number of contracts which provide for shelter, education and counselling of children in its care. The contracts are normally of a recurring one year nature with annual payments thereon approximating \$1,300,000.

b) Commitments

The Board leases office accommodation and automobiles under formal agreements with varying expiry dates to 1982. The total commitment on these leases is \$2,996,000 with amounts due within the next fiscal year approximating \$900,000.

c) Pension Plans

An actuarial valuation up to March 31, 1975 of the Public Service Superannuation Plan, under which employees of the Board are covered, has not yet been completed. Therefore these financial statements include only the cost to the Board of its regular pension contributions.

In addition, the Board has a commitment to purchase past service credits for employees formerly employed by the Children's Aid Society and accordingly a charge of \$25,000 is included in the current year's statement of operations. An additional \$80,000 may be payable once the actuarially determined value of the past service credits is known.

5. CONTINGENT LIABILITY

On July 19, 1976 an action in the B.C. Supreme Court was brought against the Board and five other parties, relating to an incident which occurred in 1975. As a result of this incident the Board's insurance company has denied liability to the Board under the applicable insurance policy. The Board's legal counsel estimates the financial involvement if any, with respect to this action, would not likely exceed \$400,000.

VANCOUVER RESOURCES BOARD
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED MARCH 31, 1977

6. GOVERNMENT OF CANADA ANTI-INFLATION LEGISLATION

The Anti-Inflation Act, which became effective on October 14, 1975, provides for the restraint of prices and profits and compensation of employees to December 31, 1978. The Board is required to comply with this legislation as it relates to employee compensation. Management's review of its operations to March 31, 1977 indicates that the Board has complied with the legislation in all material respects.

7. COMPARATIVE FIGURES

Certain of the 1976 figures provided for purposes of comparison have been restated to conform with the classifications used in the current year. These changes have had no effect on the reported results of the Board's operations.

WORKERS' COMPENSATION BOARD OF BRITISH COLUMBIAAUDITOR'S REPORT

I have examined the balance sheet of the Workers' Compensation Board of British Columbia as at December 31, 1976 and the condensed statement of class and fund transactions for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

I have relied upon the report and certificate of the Board's Consulting Actuary for the estimated liabilities for unfinalled claims and pensions, as set out in Notes 2 and 3.

In my opinion these financial statements present fairly the financial position of the Board as at December 31, 1976 and the results of its operations for the year then ended in accordance with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 1976NOTE 1 - Accounting policies(a) Fund accounting

Although the liabilities and reserves of the Board are allocated to the Accident and Silicosis Funds and various sub-divisions thereof, the assets are accounted for on a pool basis, with no allocation of individual assets to specific funds.

(b) Accrual accounting

Assessment and interest income are recorded on an accrual basis. Costs of wage loss compensation and pension awards are accrued but only up to the amount already funded from income. Medical aid and operating expenses are recorded on a cash basis.

(c) Income and expense allocation

Each Sub-class is credited with its share of assessment income and charged with its share of the following expenses:

- (i) wage loss compensation paid during the year for accidents occurring in the year;
- (ii) medical aid costs paid during the year;
- (iii) the capitalized value of pensions awarded during the year for accidents occurring in the year;
- (iv) a provision for future wage loss compensation and pension awards for accidents occurring in the year;
- (v) operating expenses paid during the year;
- (vi) items described in Notes 1(f) and 1(l)

Sub-classes are also credited or charged with interest as explained in Note 1(k).

(d) Fixed assets

Fixed assets are recorded at cost, except for buildings acquired before 1970, which are shown at appraised value.

They are depreciated on a straight-line basis over their estimated useful lives, which are as follows:

Buildings	20 or 40 years
Equipment	7 or 10 years
Furniture	10 years
Automobiles	3 years

Leasehold improvements are amortized over the period of the leases

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 1976NOTE 1 - Accounting policies (continued)(e) Investments

Investments are valued at amortized cost, based on the yield at the date of purchase. The Workers' Compensation Act requires that investments be restricted to bonds of, or guaranteed by, Canada or any Province in Canada, and that they be made in the names of the Board and the Minister of Finance jointly.

(f) Unfinalled Claims

Provisions for future claims cost Note 1(c)(iv) are carried to an Unfinalled Claims reserve, which is a part of the Accident Fund established under Section 37(1)(c) of the Workers' Compensation Act. Wage loss compensation paid and capitalized values of pensions awarded after the year of the accident are charged to that reserve up to the level of the provision made. Any costs in excess of this provision are charged to Sub-classes on a current basis. The medical aid component of compensation costs is not accrued but is accounted for on a cash basis.

(g) Pensions

Capitalized values of pensions awarded are carried to the pension reserves, which are credited with their share of interest income and charged with pensions paid. When a pension is awarded, its capitalized value is charged to the appropriate Sub-class, except in the case of a pension awarded from the Accident Fund after the year of the accident, which is charged to the Unfinalled Claims reserve.

(h) Silicosis Fund

There is no provision for unfinalled claims under the Silicosis Fund as, under the terms of the Workers' Compensation Act, a liability arises only when a claim is allowed. Since claims normally result in the award of pensions, the liability is transferred to the Pension reserve at the time the claim is allowed.

(i) Deposit classes

Certain employers have been placed by the Board in the self insuring or deposit classes. These employers are required to deposit with the Board a sum of money determined by the Board and are then billed on a monthly basis with compensation payments and pension awards made on their behalf.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 1976NOTE 1 - Accounting policies (continued)

Under this system the deposit class employers do not have to provide funding for unfinalled claims in their classes.

The Board also acts as the agent of the Government of Canada for the payment of compensation to federal employees in British Columbia. Amounts disbursed are recovered from the Government of Canada on a monthly basis.

(j) Assessment income

Because a significant portion of the assessment income for the year is not received until after the year end, the amount shown is an estimate based on statistical data.

Adjustments to this estimate are made in the following year and are shown separately in the Condensed Statement of Class and Fund Transactions.

(k) Interest income

Interest is credited or charged to the Sub-classes and the Unfinalled Claims reserve on the mean of their opening and closing balances at the rate of 6% per annum. The deposit accounts are credited or charged on their actual monthly balances. The remaining balance in the interest account is credited to the Pension reserves.

(l) Legislative amendments

Increases in benefits in respect of the 1974 amendments to the Workers' Compensation Act were not capitalized, but are charged directly to the appropriate Sub-class in the year of payment.

(m) Actuarial liabilities

The actuarial liabilities for Unfinalled Claims and Pensions are determined by the Consulting Actuary on a basis prescribed by the Board and are set out in his Report. They are not recognized in the Board's accounts but are disclosed on the Balance Sheet.

(n) Consumer price index increases

The actuarial valuation of the pension liabilities at the year end does not take into account increases in pensions payable on January 1 of the following year as a result of increases in the Consumer price index prior to the year end.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 1976NOTE 2 - Unfunded liabilities

Under the terms of the Workers' Compensation Act, the Board is required to provide capitalized reserves sufficient to meet the periodical payments of compensation accruing in future years in respect of all injuries occurring during the year under the Accident Fund and all claims allowed during the year under the Silicosis Fund. These provisions are included in the Unfinalled Claims reserves (Note 1(f) and 5) and the Pension reserves (Note 1(g)).

At the end of the year, the liabilities for compensation, as calculated by the Consulting Actuary, exceeded the reserves which had been provided by \$96,935,000 (1975 - \$96,896,000) as shown by the following table:

	<u>Actuarial liability</u>	<u>Capitalized reserves</u>	<u>Unfunded liability</u>	<u>Unfunded liability 1975</u>
Accident Fund				
Pensions	\$364,528,000	\$313,267,000	\$51,261,000	\$40,641,000
Unfinalled claims	161,000,000	118,156,000	42,844,000	53,772,000
Silicosis Fund				
Pensions	<u>11,273,000</u>	<u>8,443,000</u>	<u>2,830,000</u>	<u>2,483,000</u>
	\$536,801,000	\$439,866,000	\$96,935,000	\$96,896,000

The capitalized reserves were set up by charging provisions to the Sub-classes (Note 1(c)), leaving some Sub-classes in a debit position at December 31, 1976. The Board has an obligation to consider raising sufficient funds, by way of future assessments to bring any class in debit to a credit position.

NOTE 3 - Additional costs of compensation

The Board will be required in future years to make the compensation payments shown below in respect of accidents which occurred before December 31, 1976. Under the Workers' Compensation Act, these payments are not required to be funded and, under the accounting policies adopted by the Board, are not recognized in the accounts until the year of payment.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 1976NOTE 3 - Additional costs of compensation (continued)

The current values of these future payments at December 31, 1976, as calculated by the Consulting Actuary, are as follows:

	<u>1976</u>	<u>1975 Estimate</u>
Accident Fund		
Pensions (Note 1(n))	\$12,172,000	\$17,900,000
Unfinalled Claims		
Medical Aid (Note 1(f))	61,000,000	55,200,000
Deposit Accounts (Note 1(i))	14,500,000	12,600,000
Silicosis Fund		
Pensions (Note 1(n))	<u>376,000</u>	<u>700,000</u>
	\$88,048,000	\$86,400,000

NOTE 4 - Fixed assets

	<u>Cost or Appraised Value</u>	<u>Accumulated Depreciation</u>	<u>Net Book Value</u>	<u>Net Book Value 1975</u>
Land	\$ 1,189,000	\$ -	\$ 1,189,000	\$ 671,000
Buildings	23,814,000	1,411,000	22,403,000	18,078,000
Furniture, equipment and leasehold improvements	<u>5,447,000</u>	<u>2,661,000</u>	<u>2,786,000</u>	<u>2,632,000</u>
	\$30,450,000	\$4,072,000	\$26,378,000	\$21,381,000

Buildings acquired before 1970 were appraised at depreciated replacement cost by Universal Appraisal Co. Ltd. on August 3, 1975. This was necessary as fixed assets purchased before 1970 were not capitalized until the Board changed its accounting policy in 1975 and the costs of the original structure and subsequent improvements were no longer available at that time.

In February 1976 the Board acquired land and a building situated in Richmond at a cost of \$725,000. For accounting purposes amount of \$516,000 and \$209,000 were allocated to land and buildings respectively and are included in the balances shown above. This property has not yet been fully used and no decision has been taken on its eventual use.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED DECEMBER 31, 1976NOTE 5 - Provision:Unfinalled claims

This provision, made by the Board in consultation with the Consulting Actuary, is an estimate of the amount required to meet future claims costs of 1976 accidents (except the cost of medical aid and operating services) in all except the Deposit classes. The aggregate provision is 200% of the wage loss payments made in 1976 for 1976 injuries. This provision may vary by Sub-class. Also the sum of \$7,277,000 has been charged as a current cost because of under provision in prior years in certain Sub-classes(Note 1(f)).

NOTE 6 - Capital commitments

The Board has a commitment of \$3,364,000 under a contract for the construction of a rehabilitation clinic adjoining the Richmond residence complex.

NOTE 7 - Lease commitments

The Board has the following commitments for annual rentals on leased property:

1977	\$ 473,000
1978	359,000
1979	311,000
1980	77,000
1981	<u>4,000</u>
	\$1,224,000

The total rental expense under these leases in 1976 was \$534,000 (1975 - \$478,000).

NOTE 8 - Litigation

Claims totalling \$1,057,000 have been made against the Board in litigation currently in progress. In the opinion of the Board Counsel liability in these matters is unlikely to exceed \$200,000.

NOTE 9 - Superannuation Fund

The cost to the Board of matching employees' compulsory contributions to the Workers' Compensation Board Superannuation Fund for 1976 was \$1,116,000 (1975 - \$732,000). An actuarial valuation of the Fund's liabilities has never been carried out and therefore the Board cannot determine whether it has any additional liability to the Fund.

Gentlemen,

VALUATION OF LIABILITIES
AT DECEMBER 31, 1976

In accordance with your instructions, and continuing the established practice of the Board from last year, we have carried out a valuation of liabilities as at December 31, 1976, on bases approved by the Board.

This valuation is based on the fact that the Board will continue to generate assessment income in future to meet the cost of benefits and administration. Consequently, it is not necessary to use extreme assumptions that would only be appropriate if the purpose of the valuation were to carry out a solvency test.

Wherever possible, the actual calculations have been carried out by the staff of the Board, but we have applied all reasonable checks to the calculations and bases as well as the data, systems and methods used.

In accordance with Board Minute dated March 18, 1977, the following principles have been followed and assumptions made.

1. LIABILITY FOR PENSIONS AWARDED TO DATE:

(a) Data: In this valuation we have:

- (i) Excluded Pensions for Federal Government workers (Class 19) which are not capitalized, but are charged to the employer monthly on a current cost basis. The Board is acting only as paying agent for the Federal Government and has no capital liability for future pension payments.
- (ii) Included pensions already awarded or increased as a result of legislative amendments in 1974 and 1975.
- (iii) Based the valuation on tabulations from the Pension Insurance Master List of pensions in effect as at December 31, 1976.

(b) Assumptions:

- (i) In order to make allowance for future CPI increases on average over the whole future life-time of pensioners, a net valuation rate of interest was assumed which represented the difference between the rate of interest earned on the assets and a long term assumption as to future CPI increases. The net valuation rate of interest assumed for this valuation is 2 3/8% per annum.

This is the same net rate as has been in use since 1967. Until the margin between the rate of return on the Board's investments and the net valuation rate of interest is sufficient to provide for a higher proportion of the current level of CPI increases, we could not recommend any increase in the valuation rate. This valuation rate does not provide fully for current CPI increases (see paragraph (c) below), but neither does it unfairly burden the current generation of employers with the whole cost of future inflation.

- (ii) To ensure consistency with previous years, the existing Mortality and Remarriage bases have been used as follows, but we again recommend that the more recent experience should be analysed during 1977:

(a) Mortality of Disability Pensioners:

- 1) Permanent Total: 1957 WCB(BC) Disabled Life Table
- 2) Permanent Partial: 1957 WCB(BC) Disabled Life Table

(b) Mortality of Widows: 1957 WCB(BC) Widows Mortality Table

(c) Remarriage of Widows: 1957 WCB(BC) Remarriage Table

(d) Mortality for Children:
(for term Pensions) Ignored as negligible

(e) School leaving age: Average of 19 for all dependent children

(f) Mortality of other
adult dependents: Progressive Annuity Table
(and invalid children) (1900 Year of Birth Group)

As pensions are not regularly reviewed once granted, no allowance has been made for recoveries.

- (c) Pension Liabilities: Following the practice adopted last year, in the interests of consistency, and to provide strictly comparable results on which to assess the operations in 1976, we have valued the pensions at the level payable on December 31, 1976, and relied on the overall allowance for future increases, which is inherent in the interest assumption of 2 3/8%, to make provision for future CPI increases on and after January 1, 1977. To the extent that the CPI increases which become effective on January 1 and July 1, 1977 exceed the provision made through the rate of interest, there will be a strain giving rise to further experience deficiencies in 1977. Had the pensions been valued on the basis of the level reached on January 1, 1977, the additional liability would have amounted to \$12,172,000 in the Accident Fund and \$376,000 in the Silicosis Fund.

As stated in our Certificate, attached to this report, the results of this part of our valuation are as follows:

(i) Accident Fund -

Funds available	\$313,267,000
Actuarial liabilities	\$364,528,000
Unfunded liabilities	<u>\$ 51,261,000</u>

We recommend that this unfunded liability should be funded over a period of 10 years by a 2.4% addition to the assessment rates otherwise chargeable.

(ii) Silicosis Fund -

Funds available	\$ 8,443,000
Actuarial liabilities	<u>\$11,273,000</u>
Unfunded liabilities	<u>\$ 2,830,000</u>

We recommend that this unfunded liability should be funded over a period of 10 years by a 12.5% addition to the assessment rates otherwise chargeable.

2. UNFINALLED CLAIMS LIABILITY:

- (a) Accident Fund: In accordance with the Board's instructions, at our meeting with them on February 24, 1977, and in the interests of consistency with last year's financial statements, we have adopted the same bases of valuation as was used last year. This is the basis referred to as Model II in our report dated January 29, 1976, and again in our letter dated February 23, 1977.

These bases for the unfinalled claims liabilities are, in our opinion, suitable, in spite of the significant change in the experience ratios for 1976, because the average ratios for the three years 1974-76 are still very similar to the experience ratios for 1974/75 used for the Model II factors last year.

No provision has been made for future costs of implementation of Section 7A (Hearing Loss) or Section 24A (Reconsideration of Compensation Benefits), as the Board's policy is to charge these to Sub-Classes as current costs in the year of payment or award. Future costs in respect of prior years' injuries for the Deposit Classes will be met by the employers concerned in the year of payment. As adequate arrangements have been made for funding these claims, they have not been included as an Unfunded Liability.

For the same reason, the present value of future Medical Aid costs in respect of prior years' injuries has not been included as an Unfunded Liability, as these will also be met by employers in the year of payment.

The results of this part of our valuation are as follows:

Accident Fund: Funds available	\$118,156,000
Unfinalled Claims Liability	\$161,000,000
	<hr/>
	\$ 42,844,000

We recommend that this unfunded liability should be funded over a period of 10 years by a 2.0% addition to the assessment rates otherwise chargeable.

- (b) Silicosis Fund: No liability has been included for Unfinalled Claims in respect of the Silicosis Fund in view of the wording of Section 39(2)(b). The Board's responsibility in this Fund is to provide capitalized reserves in respect of claims in the year in which they are allowed.

There is no obligation on the Board to provide in advance for any possible future liability on account of new silicosis claims from active workers or increases in awards to existing silicosis pensioners arising from a future deterioration in their condition. In our view, these are matters to be dealt with out of the Contingency Funds, which should be built up to a more suitable level as soon as possible, as recommended in Section 4 below.

3. PROVISION FOR FUTURE CLAIMS IN RESPECT OF 1976 ACCIDENTS:

We recommend the continued use of the factor of 200% of the Time Loss payments made in the Year of Accident, which is based on Model II in our report dated January 29, 1976, and referred to in our letter of February 23, 1977. This will apply to Rateable Classes only and not to Deposit Account Classes.

4. MISCELLANEOUS FUNDS:

Certain reserves are held in respect of Sections 37(1)(b), (d) and (e) for contingencies, disasters and enhancement of disability due to a previous injury. On the basis of recent experience, these reserves are not adequate to meet the future claims that are likely to be charged to them. We strongly urge the Board to bring them up to a reasonable level in the next few years, and to review Board policy in this connection. Future liabilities have not been estimated, as they will depend on Board policy.

5. CLASS BALANCES:

There are now 45 Sub-Classes which have unfunded (or debit) balances totalling \$41,699,000, and only 20 Sub-Classes with credit balances totalling \$30,570,000. Of this latter amount, \$26,000,000 is in respect of only 4 Sub-Classes.

In order to avoid fluctuations in rates from year to year and to maintain the Funds in a healthy state, it is imperative that every effort be made to improve this position as soon as is reasonably practicable.

The criterion for setting the 1976 rates was not unduly onerous - a maximum fluctuation of 10%, at a 95% probability level - but this in itself constitutes a requirement for Class Balances at an adequate level. This level can be calculated statistically and depends on the size of the Class (or Sub-Class), the characteristic claims profile, the security loading included in the rates, the size of the available contingency and disaster reserves and the retention level for the Class (or Sub-Class).

We recommend that the Board should look into these important matters, on an urgent basis.

In the meantime, we must state that, in our opinion, the 1977 rates (which were unchanged from the 1976 rates) will not be sufficient to meet the full cost of injuries for the year, as well as to provide for administration costs, excess C.P.I. increases, the necessary funding payments for the Unfunded Liabilities, and further to bring the Miscellaneous Funds and the Sub-Class Balances up to appropriate levels.

6. INVESTMENTS:

The amortized values of the bonds held has again been used in the Book Value of the investments. Market values have improved over the year to 91% of Book Values from 80%. However, the average rate of return has not increased materially, in spite of substantial maturities during 1976 and the high rates of return then available.

7. CERTIFICATE

We hereby certify that the present value of the liabilities of the Board as at December 31, 1976, in accordance with the principles and methods set out in this Report, are shown in the attached Comparison of Funds and Liabilities - Table A, based on the Amortized Values of the Assets and a net valuation rate of interest of 2 3/8%.

We also certify that in our opinion, the amounts of the liabilities shown in Table A make reasonable provision for the future liabilities of the Board, on the understanding the Board will raise sufficient money by way of assessments in future years to meet the cost of claims that have not been fully funded in advance, - in particular -

- (i) Future Medical Aid costs in respect of prior years' injuries.
- (ii) Legislative amendments in 1974 and 1975;
- (iii) Future costs for Deposit Classes in respect of prior years' injuries; and
- (iv) CPI increases in excess of those allowed for by the net valuation rate used.

8. RECOMMENDATIONS:

- (a) Pension Funds: The unfunded amounts relative to the Pension Funds (Accident and Silicosis) of \$51,261,000 and \$2,830,000 respectively, arise mostly as a result of CPI increases in excess of those allowed for, and legislative amendments in 1974 and 1975.
- (b) Unfinalled Claims Fund (Accident Fund): The unfunded amount relative to the Accident Fund, Unfinalled Claims arises in two ways. Firstly, it is a result of the fact that claims experience in recent years in respect of prior years' injuries has been in excess of the provisions made prior to 1975.

Secondly, it is a result of a revaluation of the provision required for future claims (excluding Medical Aid) arising from injuries in years prior to 1975.

We recommend that amounts should be set aside out of future assessment income to bring all these funds to the levels required, in order to avoid further depletion of the available funds or a further increase in the unfunded liabilities. If the Unfunded Liabilities totalling \$96,935,000 were to be funded over a period of 10 years, the following additional assessments would be required:

	<u>Unfunded Liability</u> \$	<u>Funding Plan for a period of 10 years</u>
(i) Accident Fund:		
Pension Fund	51,261,000	2.4% of Assessment Income
Unfinalled Claims Fund	42,844,000	2.0% of Assessment Income
(ii) Silicosis Fund:		
Pension Fund	2,830,000	12.5% of Assessment Income
Total Unfunded Liabilities	<u>\$96,935,000</u>	(in addition to Sub-Class Balances - unfunded)

We further recommend, in view of the inadequate levels of most Sub-Class balances and of the Miscellaneous Funds, that an early review should be made of Board policy, as referred to in Sections 4 and 5 above.

If future experience follows the assumptions adopted for this valuation, we consider that the level of assessment rates already set for 1977 would not, in all Sub-Classes, be sufficient to provide for:

- (i) the total costs of injuries and administration for that year, plus
- (ii) the funding payments required to amortize the Unfunded Liabilities, and
- (iii) the whole cost of the further CPI increases which may be expected to arise in 1977, and
- (iv) the amounts needed to bring the Miscellaneous Funds and Sub-Class balances back to acceptable levels.

Respectfully submitted:

The attached Notes (1-7) and our Report dated March 19, 1977 are an integral part of this comparison.

NOTES

1. Excludes capitalized value of pensions payable to Federal Government workers (Class 19).
2. Includes pensions (or increases in pensions) already awarded as a result of 1974 and 1975 legislative amendments.
3. Excludes provision for Medical Aid in subsequent years in respect of previous years' injuries (currently estimated at \$61,000,000 for Rateable Classes only) and excludes provision for future costs of implementation of Section 7A (Hearing Loss) and Section 24A (Reconsideration of Compensation benefits).
4. Excludes provision for Deposit Accounts (Classes 10, 12, 13, 18, 19 and 20). (Currently estimated at \$10,500,000 for these Classes, excluding Class 19 and Medical Aid, or at \$14,500,000 if Medical Aid is included).
5. These funds are inadequate on the basis of the amounts charged to them in recent years. Future liabilities will depend on the policy of the Board.
6. Includes liability for pensions (or increases in pensions) already awarded as a result of legislative amendments in 1974 and 1975.
7. Excludes aggregate balances in Sub-Classes, namely -

Accident Fund

Sub-Class current balances - funded	\$30,570,000
Sub-Class current balances - unfunded	(41,699,000)

Silicosis Fund

Sub-Class current balances - funded	1,341,000
	<u>\$(9,788,000)</u>

Future assessment rates for individual Sub-Classes should be adjusted as soon as practicable, in order to bring these balances back to acceptable levels, after meeting a due share of the Unfunded Liabilities.
